INSULATION

WARMNESS

Shell protection

From active program, stay always dry and warm when you ride

Insulated jacket, stay warm and dry in every weather conditions

The ultimate warmness ever, stay warm in all extrem weather conditions

DUPONT™ SORONA®

The best reliable alternative to down & feather fill

DuPont Sorona is a renewably sourced fiber, made in part with annually renewable plant-based ingredients.

BENEFITS

- Softness&from fitting
- Warmth Retentin
- Breathable&Dries Quickly : Sorona is a breathable material with a low water absorption rate that allows insulated or padding garments made with Sorona fiber to dry quickly.

PRIMALOFT

The world's best insulation alternative: With PRIMALOFT insulation, there's no limit to what you can do. Look below to see all our innovative varieties of insulation technology and how their best features work for you. The PRIMALOFT INSULATION ECO is made from minimum 50% post consumer recycled content.

Warmth without bulk

Water resistant

Breathable

Packable and lightweight

Lightweight

Superior softness

70% recycled content

LINING

RECOVERY PROGRAM

Our designers decided to reuse all material offcuts as well as untreated non-used fabrics from our factories (that meet Picture's quality standards) and to integrate them in our jackets' linings.

These fabrics are normally meant to be burnt, and the carbon footprint of this process is disastrous for our environment. Each of our linings is a unique random colour mix & match.

THERMAL DRY SYSTEM

The thermal dry system is a special inner liner made of a PE knitted fabric whose main benefit is how fast it dries. That liner has been smartly placed on the parts of your body that are sweating the most when you're active, which need to dry fast in order to keep you always warm during your activities.

MEMBRANES

DRY-PLAY

The DryPlay membrane is a waterproof, breathable Polyurethane (PU) laminated blend offering the user the best comfort during use keeping the wearer Dry in every condition. This multi-layered formula for waterproof protection, moisture permeability and durability has been tested in Laboratories and field-tested to ensure the best possible durability and function whilst maintaining an optimum level of breathability.

- BENEFITS**
- More Waterproofing and Breathability than Other Unlined Treated Fabrics
 - Two-Layer Protection in Rain and Snow
 - Repels Wet Weather
 - Redirects Water Vapor
 - Ideal for skiing, snowboarding, ski touring and split boarding

R-PET

The R-PET25K, R-PET20K and the R-PET15K is a Waterproof, and Breathable Polyester (PES) laminated blend membrane, offering the user the best comfort during use whilst keeping the wearer Dry in every condition. This laminate membrane, constructed with nearly half a million holes per square inch, allows perspiration to pass through the jacket before it condenses to liquid, keeping you dry, warm and comfortable. In addition, this is the worlds first 100% ECO-FRIENDLY recyclable membrane.

- BENEFITS**
- Protection in Rain and Snow
 - Repels Wet Weather
 - Redirects Water Vapor
 - Exceptional Protection in Severe Weather Conditions
 - Unique Dot - Laminated Construction Keeps You Dry, Warm and Comfortable
 - Ideal for skiing, snowboarding and mountain exploring

SHELL FABRICS

DRY FIT

This technology is a high-performance polyester/cotton fabric that moves sweat away from the body to the fabrics surface where it evaporates to keep you always warm and dry.

DURABLE WATER REPELLANT

The Play Collection uses an optimized DWR Technology that keeps water droplets in a rounder shape to slide from the fabric. The PICTURE DWR treatment carries a warranty, is sustainable and PFOA / PFOS free. DWR treatment carries a warranty, is sustainable and PFOA / PFOS free. Warranty 90% efficiency after 10 washes

STRETCH FABRICS

5% elastane minimum for the best confort ever.

POWER WOOL

Polartec® Power Wool™ fabrics are designed to keep you dry and comfortable. All fabrics in this series feature a bi-component knit construction that uses different yarns on either side of the fabric. This creates two different surfaces: one that is optimized to move moisture away from the skin, the other to dry quickly.

RECYCLED FABRICS

PICTURE products warranty a minimum of 50% recycled PET bottle in the main fabric.

POWER STRETCH

Polartec® Power Stretch® fabrics feature body-hugging 4-way stretch and are very breathable. They keep you dry when you sweat and provide warmth without weight. These are the most versatile outdoor and fitness apparel fabrics available today. Many of the fabrics feature a proprietary construction with two unique surfaces: a durable outer layer and a soft inner layer pulls moisture away from your skin keeping you dry, warm and comfortable. Other fabrics in the series feature compression stretch which can improve performance and reduces the chance of certain types of stop-go injuries. All the fabrics excel at handling the demands of the next-to-skin environment

Anatomy of an Action Figure

The PLAY Collection offers lightweight warmth responding to the user's natural motion. Composed from Polyester, products include Cotton Jackets, Tech T. Shirts, Tech Fleece and Tech Fleece Pants.

Mobility with no limits, practice makes perfect but the rigors of repeated slams in a quest to add to an artillery of tricks means clothing needs to last with the wearer.

The PLAY collection focuses on breathability and durability.

Tested by professional Skiers & Snowboarders, every element of every piece is made in line with specific athlete insights. It's about keeping things moving and setting innovation in motion.

"GROW WITH ME"

«Grow with me» allows jackets and pants to grow along with the youth. Two easy steps allow jackets and pants to lengthen and waists to grow a full size to keep groms going strong, multiple seasons in a row.

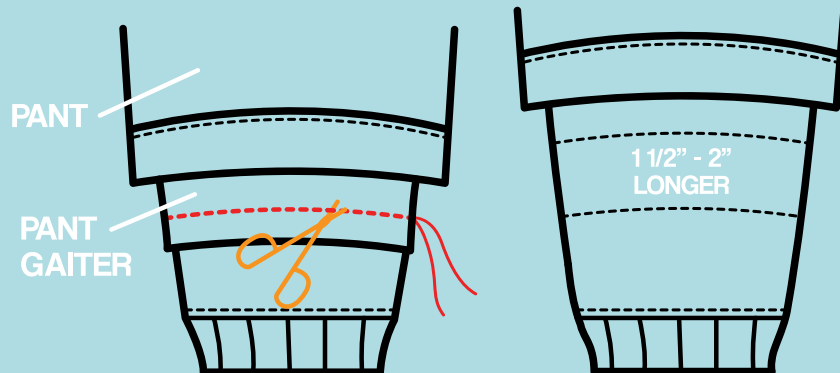

SLEEVE GAITER EXTENSION

Snip and pull red thread out and gaiter extends

PANT GAITER EXTENSION

Snip and pull red thread out and gaiter extends

PANT CUFF EXTENSION

Flip pant leg to expose underside and red thread.

Snip and pull red thread and pant cuff extends
