Born on the slopes. Used worldwide.

We work with like minded professionals, athletes and stars of the future to ensure our products are always ready for the journey ahead. Travel is complicated enough, your luggage doesn't need to be.

GB Cross Country

Team GB Cross Country use Snokart bags as part of their day to day travel needs and are instrumental in the development of the Kart XC.

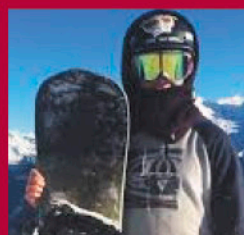

Jacopo Luchini

From Florence Jacopo is an adaptive athlete of the Italian National Snowboard Team, specialising in Banked Slalom and the Boardercross, SBX World Cup reigning World Champion!

Justin Taylor Tipton

19 year old JTT is a freestyle skier with the JT Freeski academy. Currently on the GB park and pipe team working towards the Olympics & X Games

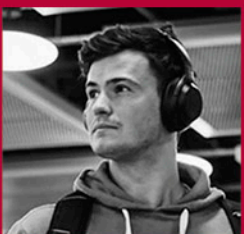

Ethan Smith

Part of the GB Snowsport Park and Pipe Squad. Represented Team GB in Sarajevo and the Junior World Championships in Sweden. Ethan also qualified for the World Rookie Tour Final in Austria.

Gabe Adams

World top ranked as a rookie in 2018, Gabe is competing in the open World Cup in 2020 working towards the winter Olympics

Jamie Barrow

Britains fastest snowboarder. Snokart are delighted to be working with Jamie and his team on their Snowboard Speed World record attempt.

Smart Function

FIDLOCK®

Fidlock fasteners use high performance magnets to make locking and unlocking easier.

The magnets help guide the fixings into place with a satisfying click. Use the alignment guides on the side of the bag and the fixing will lock.

The twisting and release mechanisms turn the magnets so they actively help release, making it simple, even one handed.

Introducing the 3rd generation Kart System featuring Fidlock magnetic fastenings. Strong, secure and easy to use, our modular luggage components simply align and click together.

Fidlock fasteners are based on a unique award winning technology which is revolutionising fastening systems. The Fidlock principle brings together the advantages of magnetic fasteners and mechanical locks. The result is a new dimension in terms of functionality, safety and security.

SnoKart 

Smart Design

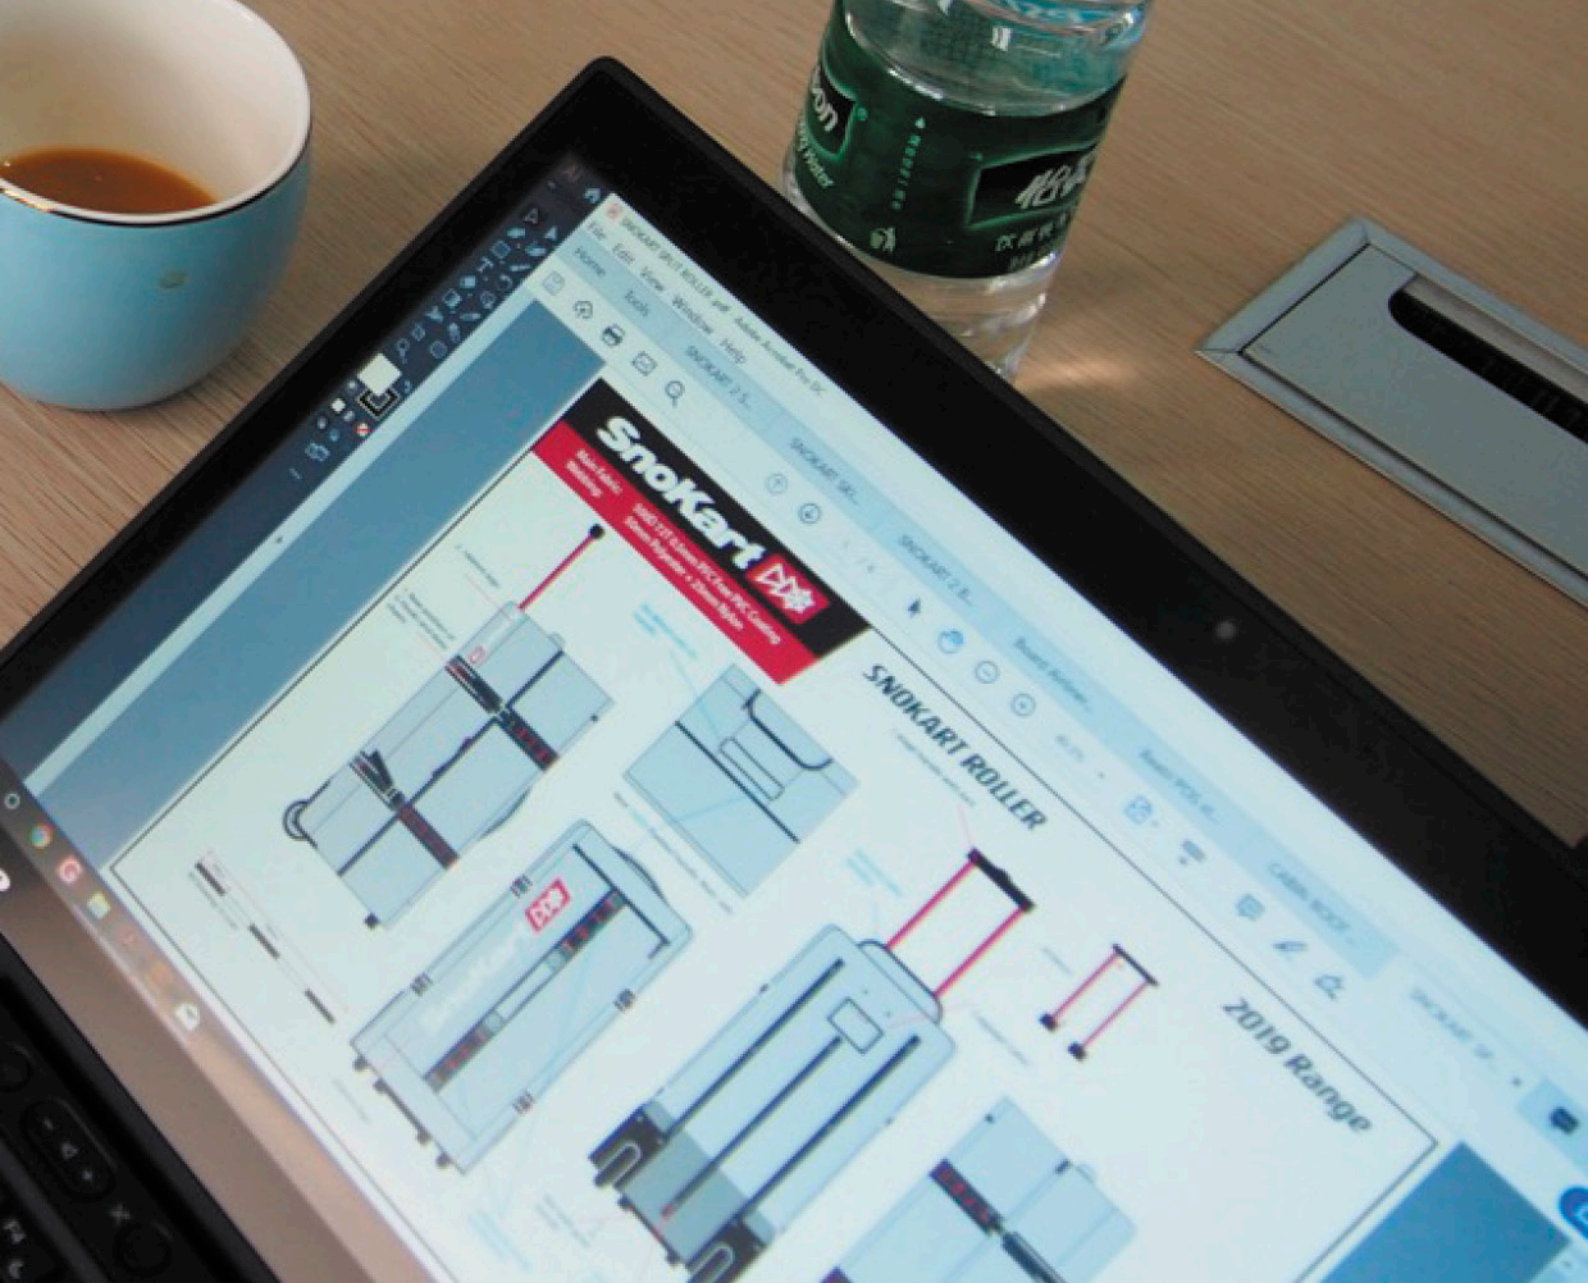

carry COMPATIBLE

Our Carry Compatible bag designs can be used together seamlessly.

The use of open back systems allows all packs to slide over the handles of our luggage for a simple single handed pull

All webbing straps are finished so that they can be attached to any of our G clips, whatever the product. This allows smaller bags and packs to be strapped to our Karts and rollers for security

We take a very real world approach to design. Form must follow function as we continue to innovate.

We have increased the strength of our bags by over 50% by refining the construction of our fabrics

All our handles are ergonomically designed and placed to give the best lift. Padded and reinforced to make carrying bulky loads easier.

Our G Clips have been engineered to allow webbing to run smoothly so they tighten & lock easily but release simply.

All our webbing daisy chains are sewn raised & ready to use

We design-in compatibility so that consumers can invest in a range of SnoKart products that can be used together seamlessly.

Rolling 6 in 1 luggage system

3 Core Components, 6 options

Main Kart Roller Fits Skis or Boards

100L 2 Part Roller bag

NEW for 20

160-175-190cm

Slopestyle Roller

834078/020

A shorter length roller bag designed specifically for snowboards or shorter skis

With shorter boards & skis more in demand this roller keeps luggage size to a minimum for easier transport. Starting at 145cm in length the bag can be zoom extended to fit upto 165cm

With deeper sides than our Karts even in its shortest length this bag offers over 95L of storage (increasing to over 110L when fully extended)

Padded construction throughout & dividers to allow skis and board or 2 boards to be carried without damaging each other

- Large enough for all your equipment, with space for clothing and accessories
- Fully padded and water repellent
- Waterproof lining
- Plenty extra space for all clothing
- Multi-carry modes: roll along, hand or shoulder carrying
- Side compression straps tighten to keep contents secure.
- Carry Compatible straps allow attachment of other Snokart rucksacks & bags
- Rugged easy roll wheels
- Internal pocket for snowboard tools and accessories
- Internal securing straps for skis & boards
- Grab handles at both ends
- Address and ID tag supplied

2 Ski Roller

834021/020

The 2 Ski Roller Bag is an ultra sturdy and truly beautifully designed ski bag made to carry two pairs of skis, poles & kit.

Its new double zoom feature means that it adjusts to fit all popular lengths of alpine skis

Ergonomically designed to maximise storage and minimise inconvenience, this bag represents the latest design ideas and innovation to make your journey to the slopes as easy as possible.

For AW19 the bag is upgraded with stronger PFC free fabric

New padded handle design is stronger and more comfortable in use

Perfect for travelling together and sharing a single ski bag to save on airline handling costs. Alternatively, go solo and get all your kit and boots into this deceptively roomy bag.

- Easy roll padded ski protection.
- Double zoom adjusts to fit skis from 160cm to 185cm and then up to 205cm.
- Large easy roll wheels to cope with snowy pavements.
- Easy to carry shoulder straps that can be zipped away for airport handling.
- New design grab handles at both ends make lifting and retrieval easier.
- Double compression straps.
- Lockable zips.
- Protective water resistant & padded construction.
- Plenty of room for poles and other items .
- Use in conjunction with our AIRLINER bags to keep clothing clean and equipment protected.
- Take full advantage of checked luggage to minimise hand luggage.
- Constructed to the highest standards.
- Address window and ID card.
- Smooth rolling wheels large enough to cope with snowy ground.

Work Life Balance set

834077/020

The Work Life Balance Roller & Pack is a carry-on bag & backpack set for the frequent traveller who wants the perfect balance between practical function and contemporary design

Designed to keep your work and tech gear organised and accessible while your personal items and clothes are stored discreetly behind.

Flexible 2 bag construction allows you to keep essentials with you and check-in the main bag if necessary. A magnetic accessory case is compatible with either bag and can move to which ever is being used.

Roller bag

- Carry on sized - can be rolled or carried easily
- Designed to adapt to your travel needs the capacity can be expanded from a budget airline carry on friendly 35L to a more expansive 50L
- Perfect for the modern traveller. Big enough to carry work essentials and keep personal items separate in the zoom compartment behind
- Curved zip design allows access to tech without having to fully open the bag for security
- Front pocket is equipped with soft padded sleeve for laptop & tablet
- Strong and comfortable padded grab handles
- Smooth rolling skate style wheels
- Lightweight 2 stage anodised aluminium handle

Backpack

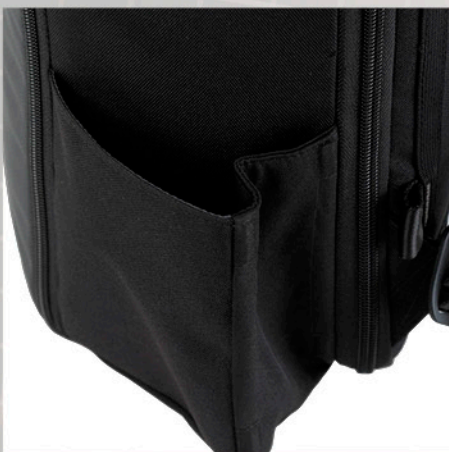

- Designed as a contemporary daypack, small but packed with useful storage for the commuter
- Large enough for A4 files & can hold laptop or tablet as well as leads and chargers
- A small zoom feature gives an extra 4L capacity for when more space is needed
- Internal space is organised and easy to access
- Includes small organiser case with a magnet that holds it in place inside the lid
- Features magnetic fold away external bottle pocket
- Carry Compatible - slips easily over the handle of this or any other of our rollers

Board Airliner

734007/040

The Board Airliner is a lightweight protective bag designed for storage, carrying and to protect a board in transit. Use to carry a board to the slope or use inside luggage to keep edges and other gear separate.

- Suitable for boards up to 170cm
- Easy to carry and perfect for storage
- Big access zip openings.
- Rip-stop, water resistant fabric.
- Keep wet boards away from clothes or off car seats
- Allows board to be packed within your general luggage without edges or dirt touching your clothes
- Address window and ID card.

Size: 170cm x 30cm
Weight: 400g

Fit all boot sizes

Fit inside our ski and boot bags

Combine as a boot bag or split for storage in luggage

Fits most helmet sizes

Easy to use

Lightweight and protective

Boot Airliner

734009/040

The most useful boot bags you will ever buy. Lightweight and strong, they are designed to protect skis and boots and keep them separate from clothes in your main ski bag. They also make the perfect protective cover for boots in storage.

They are strong enough for use in resort, to carry to and from the slopes and fold and pack down really small, so can be stuffed away easily.

- A bag for each boot gives lots more packing options.
- Quick press stud and velcro join-up option allows them to be carried together like a standard boot bag.
- Big access zip openings.
- Rip-stop, water resistant fabric.
- Suitable for ski or snowboard boots.
- Allows dirty boots to be packed within your general luggage.

Size: 36cm x 33cm x 28cm the pair

Weight: 300g the pair

Helmet Airliner

834074/040

Keeps helmet safely away from sharp edges in your luggage and is perfect for storing helmets of all kinds.

- Suitable for most sizes of helmets
- Easy to carry and perfect for storage
- Big drawcord opening.
- Rip-stop, water resistant fabric.
- Soft no-scratch lining
- Allows helmet to be packed within your general luggage without getting scratched
- Address window and ID card.

Size: Fits standard helmets up to XL. Visor styles may vary

Weight: 150g

Keep clothes clean, crease free and organised

Packing cubes have revolutionised travel for those in the know. The concept is simple and it works. Organise items into individual packs and they are smaller in volume, easier to handle and faster to pack.

Set of 3 bags including 5L, 8L and 12L sizes suitable for clothes, underwear, shoes and toiletries. Designed to fit our roller bags.

- Make packing & unpacking easier and quicker
- Keep clothes folded and crease free
- 3 sizes fit all common clothing items
- Smallest bag fits footwear or toiletries
- Clear front panel to see contents
- Separate clean and dirty items
- Easy to wash and clean
- Fit perfectly as a single layer inside SnoKart roller luggage
- Retail display hanging on a Euroslot display card

Size:	Large	12L	36cm x 36cm x 9cm
	Medium	8L	25cm x 36cm x 9cm
	Small	5L	16cm x 36cm x 9cm
