THE NAME: LÉ BENT

WE ARE NAMED FOR OUR TWO DEFINING INFLUENCES - LES ALPES FRANÇAISES AND DOING THINGS DIFFERENTLY, BENDING THE NORM.

Lé: 01. The (definite article)
02. An homage to our years fitting ski boots in Val-d'Isère.

Bent: 01. Simple past tense and past participle of bend.
(adj.) 02. Different from the normal or usual.
(adj.) 03. Strongly inclined or determined: "we are hell bent on making good products."
(adj.) 04. The defining characteristic of a sock...

OUR STORY

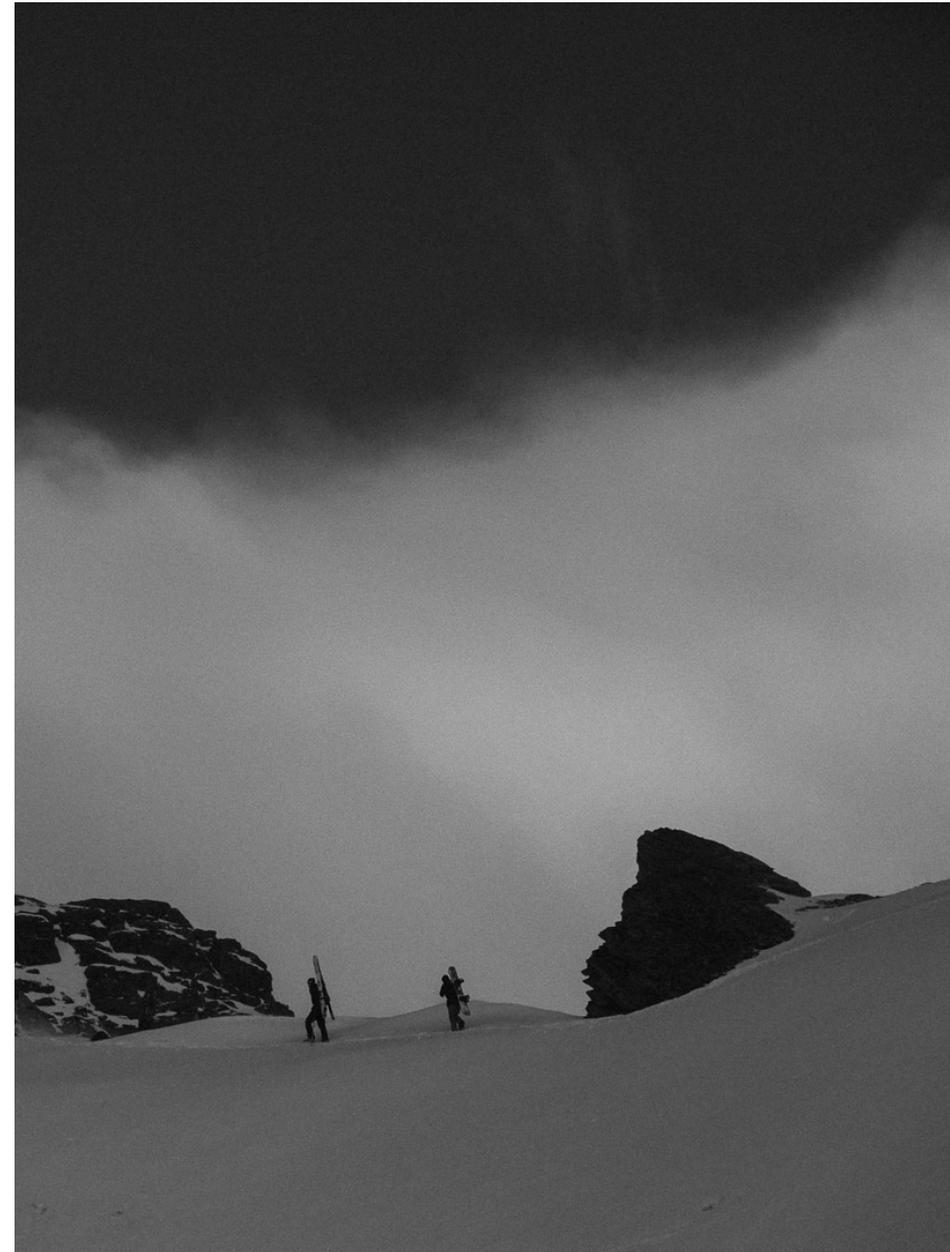

We craft intelligently designed technical socks, base layers and accessories, blurring the lines between luxurious comfort, performance and style.

Le Bent's commitment to performance, unrivaled comfort and sustainability is visible across all of its Merino-based lines that are built for the rider's lifestyle, whether that be snow, trail run, mountain bike or anything in between.

"Our ambition is to inspire good times and adventure in the products we make and lifestyles we lead. We create products we use ourselves and these products enable our global tribe to lose themselves in their outdoor experiences."

- 05 EVOLVED LAYERING SYSTEM

MERINO + BAMBOO RAYON

SIGNATURE MERINO BLEND

Our unique blend of materials came from an idea to challenge the status quo.

Unsatisfied with the feel and fit of what existed before, we used experience, technology and a helping hand from science to craft our Signature Merino Blend.

The benefits are unrivaled.

SIGNATURE MERINO BLEND: BAMBOO + MERINO

MERINO WOOL

Peerless when it comes to natural performance, Merino wool has been the benchmark for technical fabrics for centuries and still outperforms any human made synthetic copy notwithstanding natural combinations à la our signature fabric.

Ever seen a cold sheep? Ever seen a hot one? How can a creature be woolly in a warm climate? The mind boggles. But the wool reigns supreme as a thermo regulator. Throw in its anti-bacterial, moisture wicking and odourless properties and it's easy to see 'why Merino?'

RAYON FROM BAMBOO

If Merino is the prized pony of the fabric world, Bamboo is very much the dark horse. We take the Rayon from Bamboo fiber which is as smooth and as luxurious as silk and cashmere. Far softer than an already soft Merino fiber, ultra breathable in its own right and with the ability to diffuse static electricity, it's perfectly suited as a first on skin layer, and the perfect partner to merino, not least because it's a grass and sheep love grass right?

Being a part of the grass family, it makes it an extraordinary plant that grows rapidly in most climates with little water and no pesticides. As a result, it is one of the most environmentally friendly and sustainable natural raw resources out there.

SIGNATURE MERINO BLEND: ADVANTAGES

01 NO ITCH TECHNOLOGY

Rayon crafted from Bamboo has a luxurious softness similar to silk and cashmere, and a springiness you'd expect from the almost elastic plant. The fibers are smoother and rounder with no sharp spurs to irritate the skin. Those with irritations to Merino tend to have no reaction to our Signature Merino Blend. It's itch free comfort, so soft and comfortable you'll want to sleep in it. And we do...

02 TEMPERATURE REGULATING

A powerful insulator that naturally regulates body temperature in all conditions, warm in the cold and cool in the heat. The air trapped inside the micro fiber gaps retain and regulate the thermal energy created by the body. As the body heats up, any moisture is evaporated, cooling the air between the skin and fabric. A natural thermostat that leaves you regulated day in day out.

03 KEEPS YOU DRY

Rayon from Bamboo and Merino provide a leading wicking agency. The fiber cross-sections are covered with micro-gaps giving the fabric leading moisture absorption and ventilation properties. This naturally moves sweat away from the skin leaving you drier for longer.

04 ODOUR CONTROL

Helps control odour producing bacteria by delivering a dry, moisture free environment that keeps you hygienic and odour free even when worn multiple times - trust us, as (sometimes) unwashed outdoor gurus, we've tested this one almost excessively...

05 UV50+ PROTECTION

Our Signature Merino Blend comes with a UV50+ rating.

SUSTAINABILITY

We've been provided this natural playground, which is here by chance, not privilege. Every toe we put in the sand, each turn we make in the snow, or tread we leave in the dirt can dissolve without a trace. We believe what we wear in the elements should not alter this impact.

The wool from sheep is as 100% natural as it gets, and sheep will quickly re-grow their coat as the climate around them demands it. Le Bent uses non-mulesed Merino.

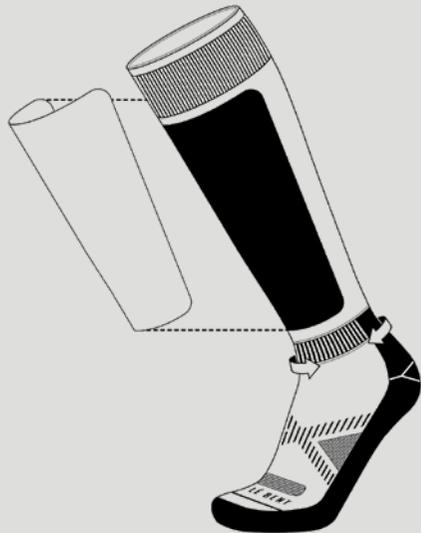

Bamboo is a permanent and rapidly growing evergreen plant requiring zero pesticides, uses far less water than trees and cotton and helps prevent soil erosion. Our Bamboo is certified by (OCIA) Organic Crops Improvement Association International.

DEFINITIVE FIT SYSTEM™

For a better fit.

The Definitive Fit System™ is a technical construction system, providing elastics, strategic stitching and targeted comfort zones to give support in all the key areas.

01 ELASTICATED INSTEP

To make it secure and snug, no wrinkles or bunching.

02 ANKLE BAND

Precision fit, supporting every twist and turn.

03 ACHILLES SUPPORT

Extra comfort in this high friction area, also minimising heel lift.

04 MEMORY STRETCH

Moulds to your foot every time you put the socks on.

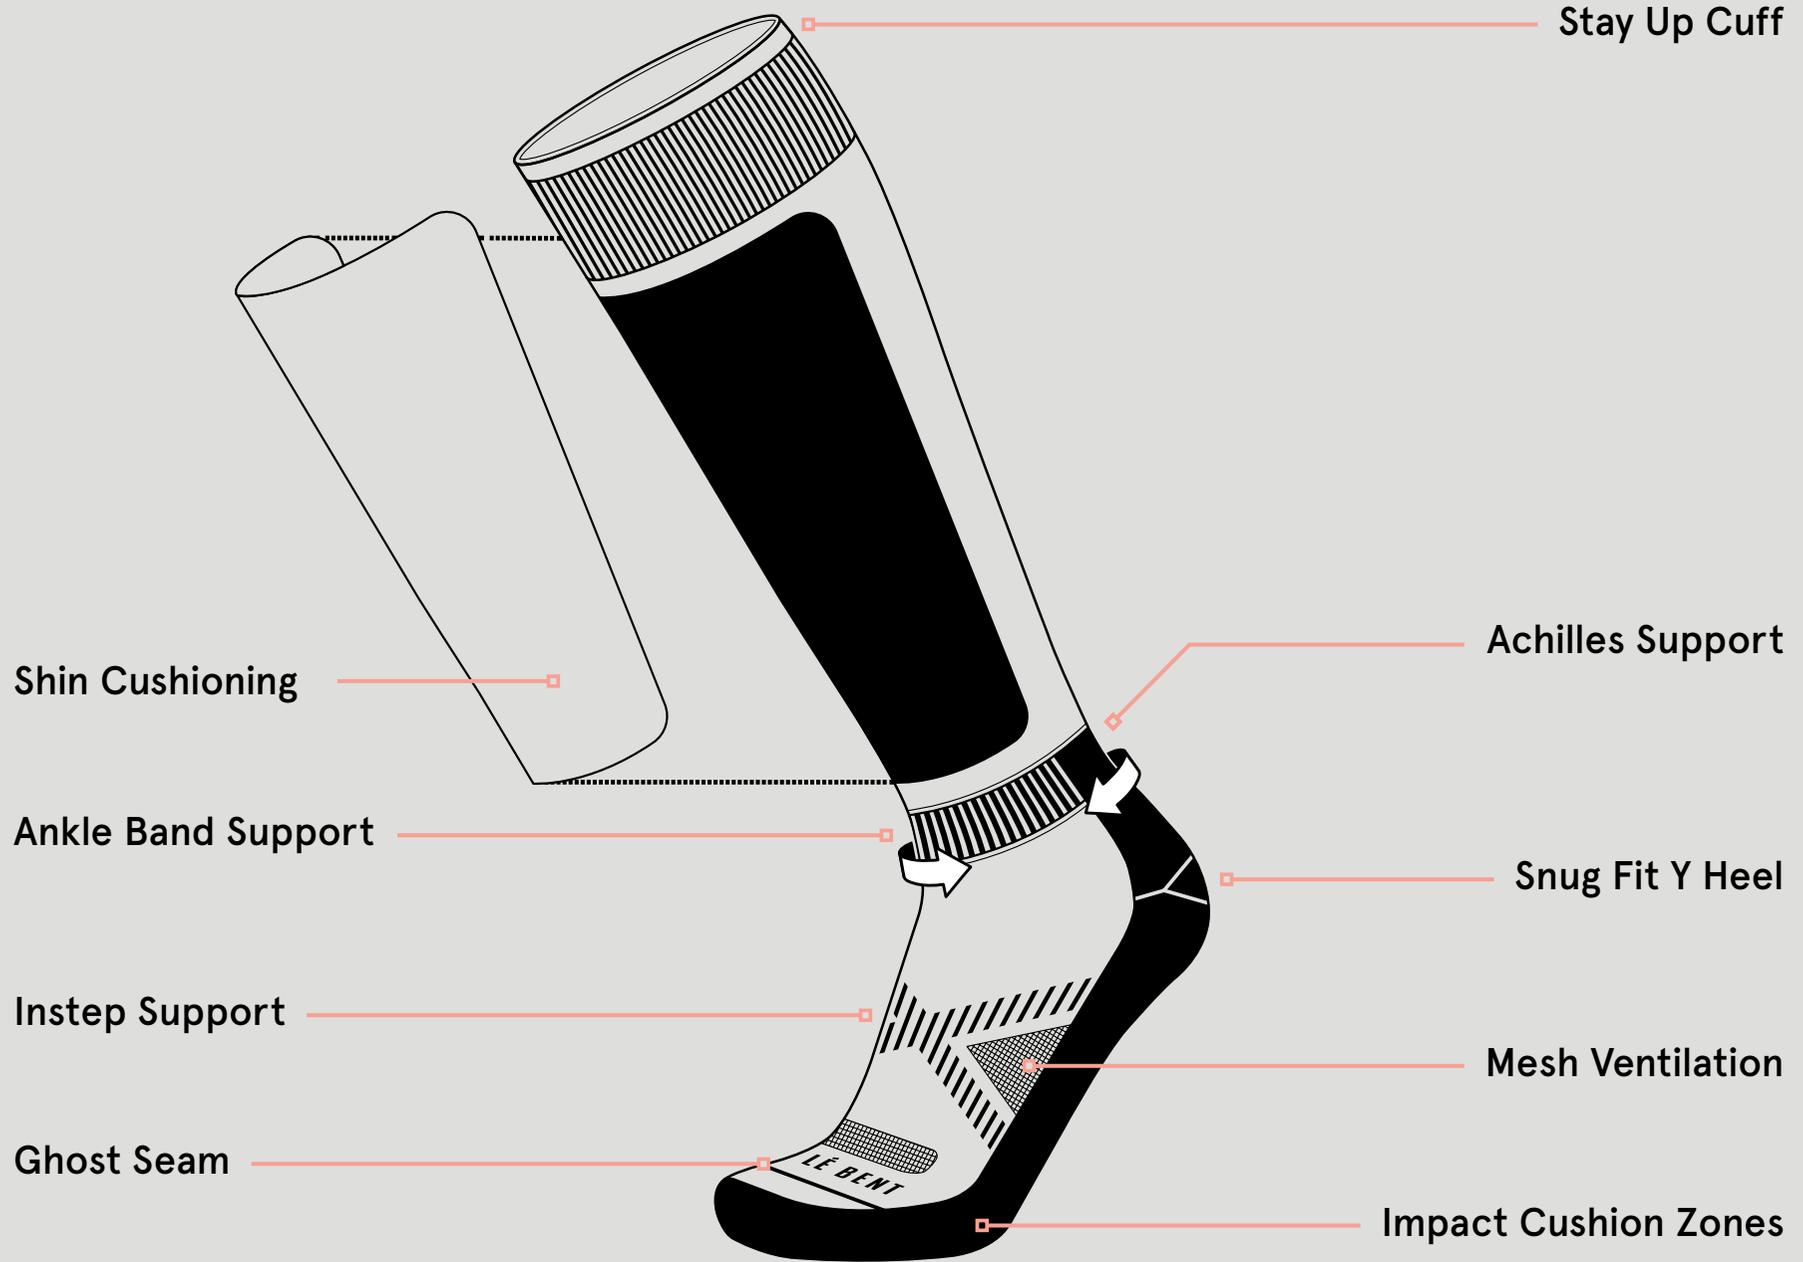

05 MESH VENTILATION

Ensuring maximum breathability in key zones.

06 GHOST SEAM

Like there is no seam at all.

100% SATISFACTION GUARANTEE

Le Bent was born from an idea to challenge the status quo. Unsatisfied with the feel and fit of what existed before, we used experience, technology and a helping hand from science to craft our Signature Merino Blend. We demand performance from our products and trust them to be there to provide comfort, no-matter what the environment throws at us on the mountain, trail or street.

Our pledge to you is that our products will be with you to provide the best level of comfort in the elements. That's why we back our range with our "Feel The Difference Guarantee". If you're not 100% satisfied with our products, you can return them unworn OR worn within 100 days from the purchase date, no questions asked.

We set this standard and provide you, the retailer, with the option to exchange or refund any item... on the spot.

100%

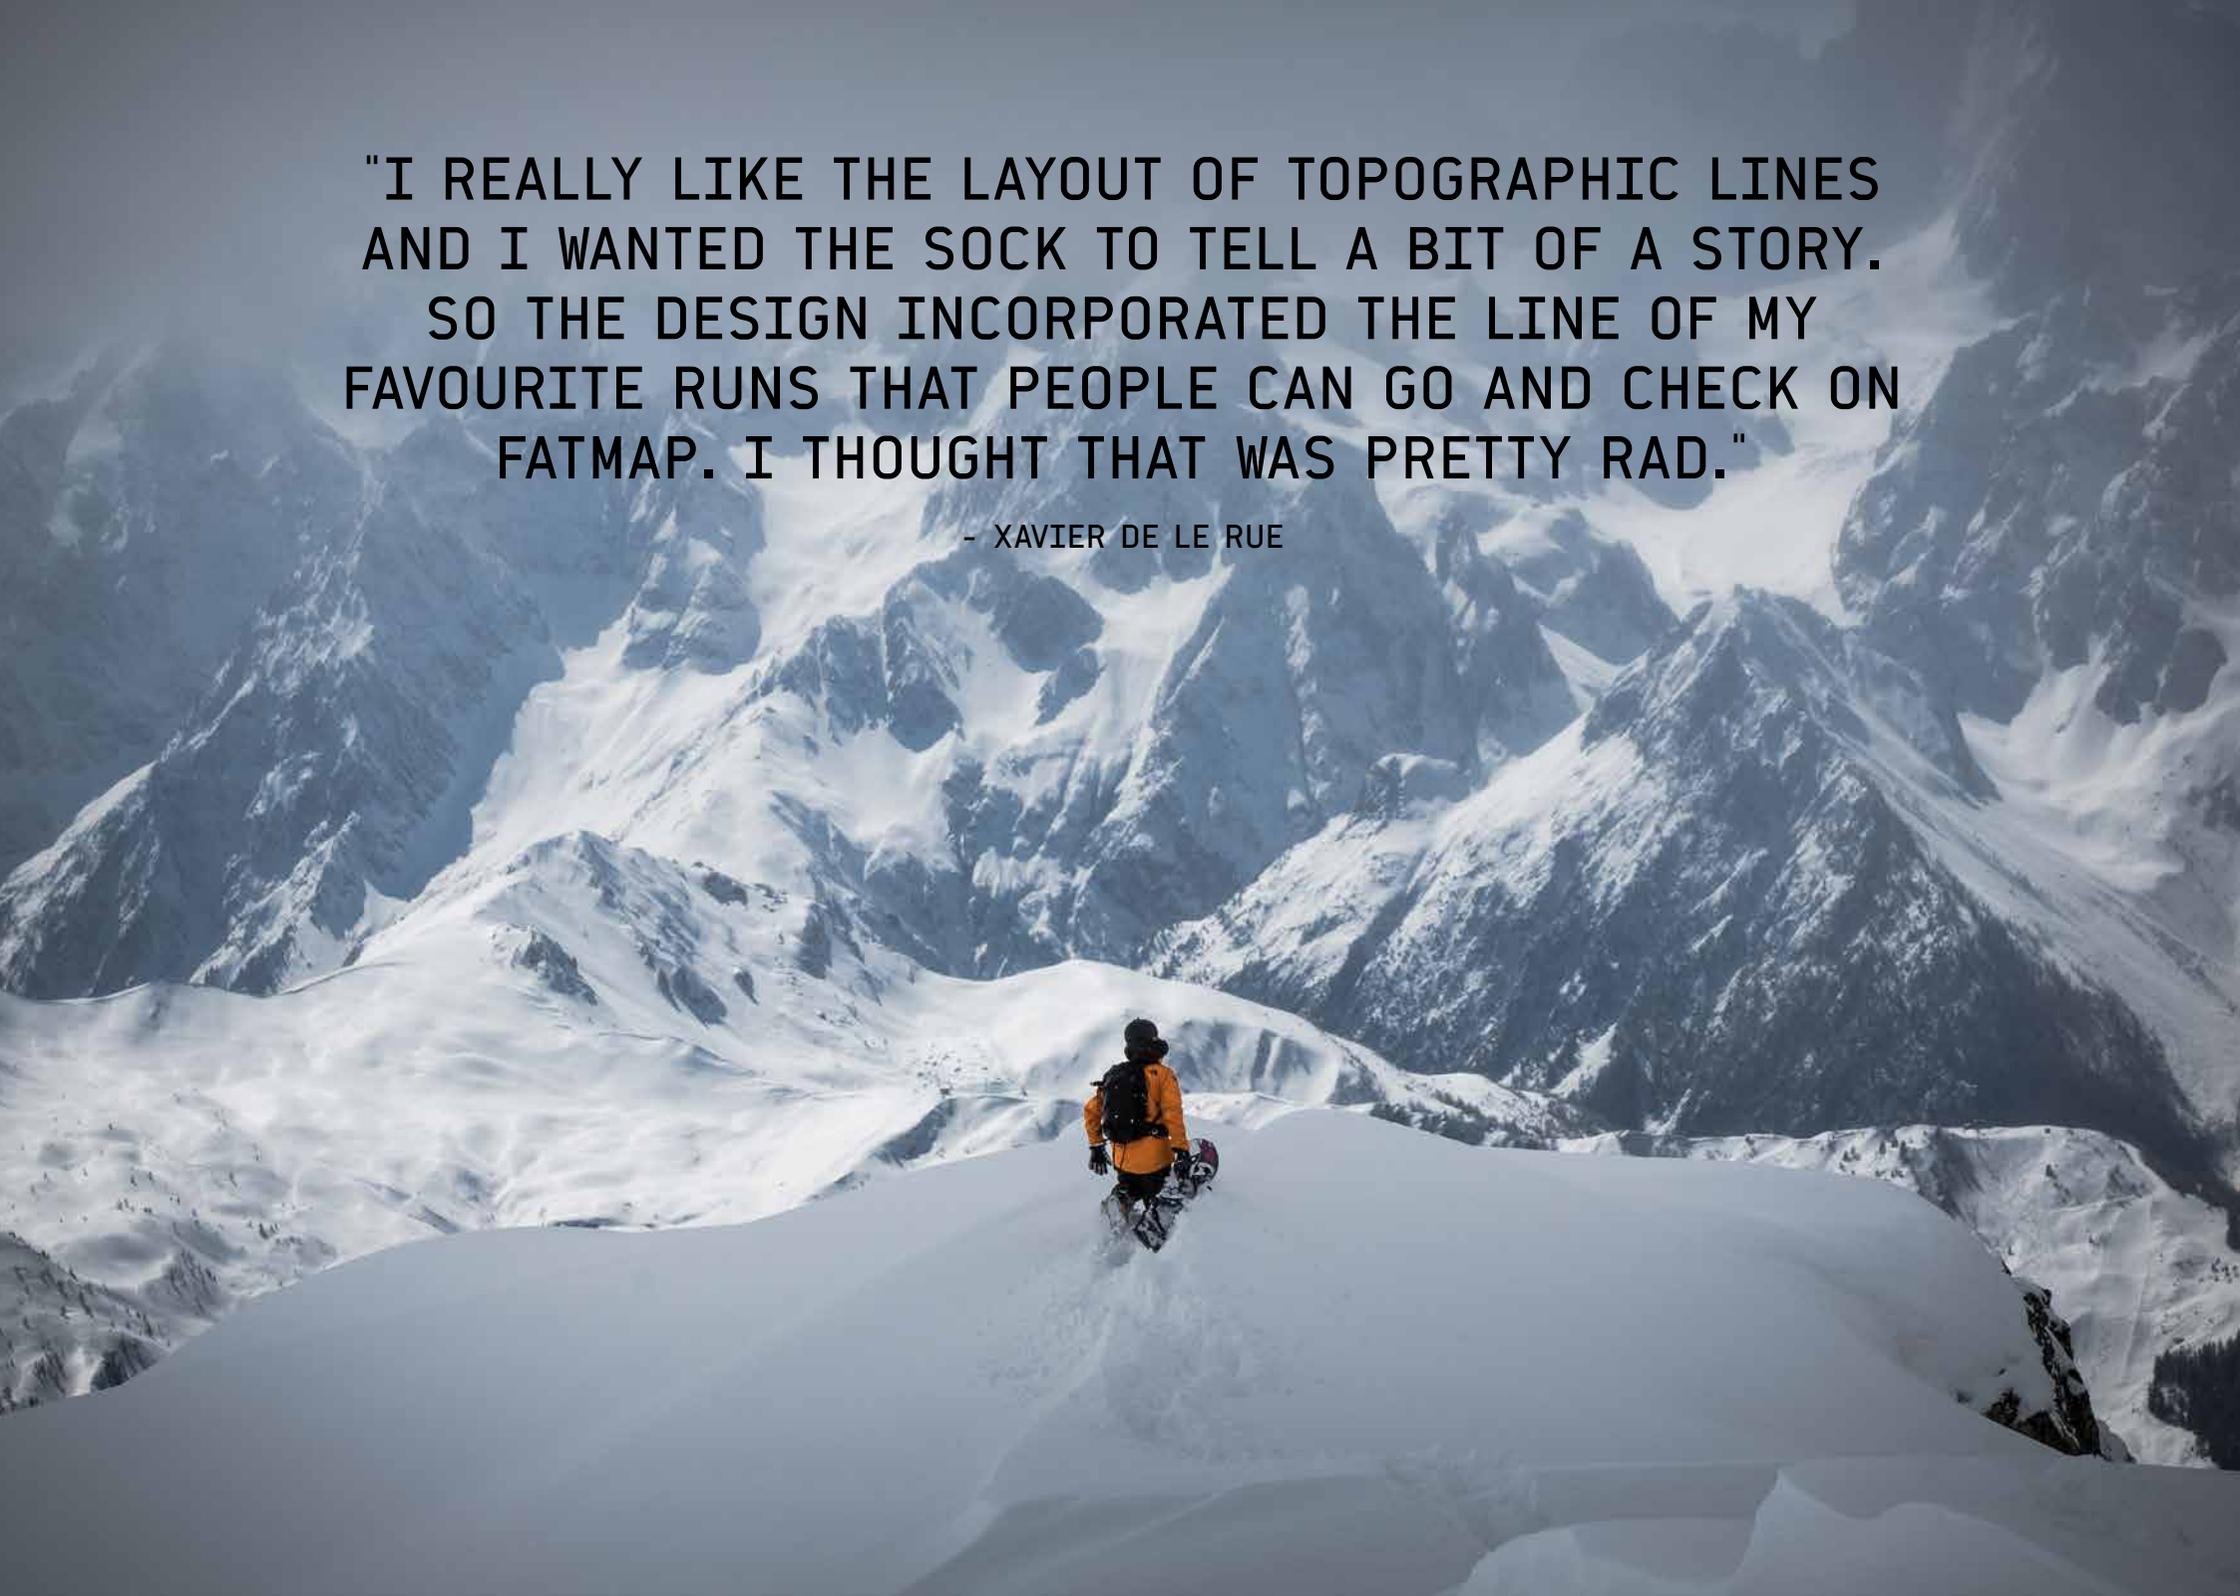

ATHLETE EVOLVED

PRO TEAM

They spend more time breaking trail or sending the biggest lines. So we partnered with them to innovate and develop products built specific for purpose.

"I REALLY LIKE THE LAYOUT OF TOPOGRAPHIC LINES
AND I WANTED THE SOCK TO TELL A BIT OF A STORY.
SO THE DESIGN INCORPORATED THE LINE OF MY
FAVOURITE RUNS THAT PEOPLE CAN GO AND CHECK ON
FATMAP. I THOUGHT THAT WAS PRETTY RAD."

- XAVIER DE LE RUE

CODY TOWNSEND PRO SERIES

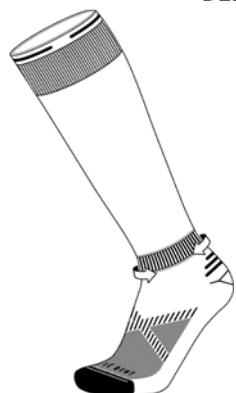

Notably one of the highest regarded big mountain free skiers of this generation. Cody Townsend has a long list of accolades under his belt including the epic tick list he's gone after as showcased in his series 'The Fifty Project' – where he decided to not only ski down fifty of the best big mountain lines in North America, but also climb each of them too. A true testing ground for the evolution of the world's first backcountry sock; Built for long days in boots, praying away the blisters on the way up, and for the ultimate send!

"I joined Le Bent because I like to work with companies that don't just use me for my athlete recognition but actually want to truly work with me to develop the best possible product. If your socks don't fit perfectly and the material is crap you're going to have a bad day of skiing, no thank you."

- Elyse Saugstad

SAMMY CARLSON PRO SERIES

Designed in collaboration with Sammy Carlson, these high performance snow socks have revolutionized comfort for long days spent on intimidating angles, or floating over pillows in the backcountry.

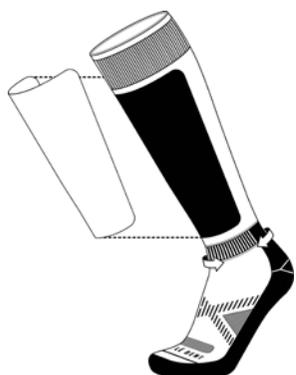

Modelled off our award winning Snow Light Sock blueprint, the Sammy Pro blends comfort and performance for day-long riding with light cushioning placed under the foot and over the shin for protection in these high impact areas.

"Describing comfort after a long day in neg 20 is easy; if you're warm, dry and still good to get down then you've nailed it. The crew at Le Bent live by this ethos and, although I didn't believe it was possible in a sock, we went down the path to craft a sock which will keep you going... and keep your feet looking damn-fine when boots come off."

- Sammy Carlson

XAVIER DE LE RUE PRO SERIES

The acronym G.O.A.T gets thrown around a lot in the context of professional sports. So, perhaps adding the word 'Mountain' as a prefix more accurately represents what Xavier De Le Rue is to professional big mountain snowboarding. A 3 x Freeride World Tour champion and 4 x World Boardercross Champion, Xavier's seen and ridden it all. He brings his big mountain expertise, eye for detail and appreciation for the mountains in which he and we play to his first signature pro model snowboarding sock.

THE HEAVIER THE WEIGHT. THE WARMER YOU'LL BE.

The term 'first-on-skin' doesn't come lightly to us. We meticulously design every weave of our Signature Merino Blend to provide maximum wear and long-lasting performance in the elements. Outer layers and base layering are two things that work in harmony, without one you'll be the first to head home.

Each weighted option in our base layers will encourage seamless movement without compromising comfort and temperature control. So you can focus on getting out there, we'll take care of the rest.

WOMENS CORE 200 CREW

Layering starts here. The lightweight Womens Core 200 Crew isn't just any staple thermal. Crafted with performance at the core, these luxurious base layers combine comfort and style in perfect synergy.

The Signature Merino Blend of Merino Wool and Rayon from Bamboo naturally works in harmony with your body to regulate temperature and is even beloved by those with Merino irritations making it an unrivaled on-skin layer. 4-way stretch, contoured panels, scoop bottom and anti-chafe flatlock stitching all works with your body for maximum performance and ultimate comfort.

FEATURES:

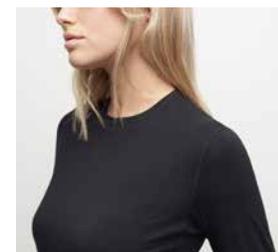

- SIGNATURE MERINO BLEND
- 200GM² LIGHTWEIGHT
- CONTOURED LIFESTYLE FIT
- 4-WAY STRETCH
- SCOOP BOTTOM
- FLATLOCK STITCHING
- UV50+ SUN PROTECTION

WOMENS 200 CREW

One of our most popular layers is back with a fresh paint job. The beloved deep purple Nightshade colour is now joined by the soft sea tone colourway – 'Spray'. But, there's also much more going on than the bespoke block colours. These base layers are crafted to meet the demands of the harshest environments and most demanding activities. Yet, you can wear them anywhere thanks to a semi-relaxed contoured lifestyle fit.

Subtle design features like imbuing our Signature Merino Blend with 4-way stretch, a scoop bottom and durable flatlock stitching mean these layers will work with you from the summit to the soirée.

FEATURES:

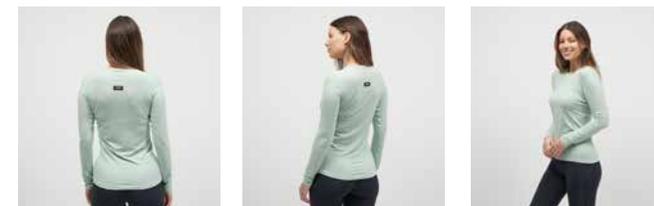

- SIGNATURE MERINO BLEND
- 200GM² LIGHTWEIGHT
- CONTOURED LIFESTYLE FIT
- 4-WAY STRETCH
- SCOOP BOTTOM
- FLATLOCK STITCHING

WOMENS CORE 260 BOTTOM

Our warmest base layer bottoms are as comfortable being a single layer in cool weather or a first on-skin layer in the coldest of snowy conditions. Soft on skin and smart with temperature.

These midweight bottoms remain highly breathable and stay odour-free long after you. The design works with your body seamlessly for all day comfort with flatlock seams to prevent chafe, contoured panels, 4-way stretch and a wide waistband to distribute pressure and ensure a firm hold.

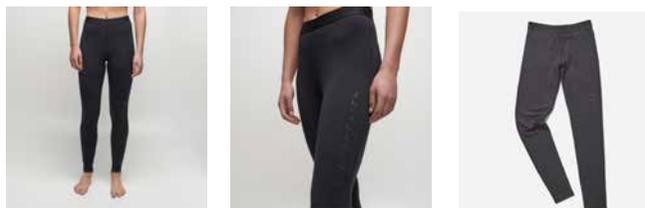

WOMENS CORE 260 3/4 BOTTOM

All the technical and warmth benefits of our full length 260gm bottoms, in a neat $\frac{3}{4}$ cut. This luxuriously soft layer concludes at the mid calf-length making it the perfect accompaniment for those in ski and snowboard boots.

The same goes for all winter and high cuff footwear in colder climates where the midweight Signature Merino Blend fabric is especially appreciated. Pair them with our award winning snow socks for the perfect combo.

MENS 200 CREW

A crowd favourite for its sheer adaptability, the 200 Crew baselayer belongs in all drawers as a critical piece of the layering puzzle. Made from our lightweight 200gm² Signature Merino Blend this layer delivers maximum breathability and temperature regulation. We've worn it under layers of Down and Gore-Tex during colder days on the ski hill and as a standalone layer for slushy spring laps and warm skin tracks.

Available in the autumnal Wren colour with highlighted flatlock stitching or the new Petrol Grey, this layer not only goes with anything it does everything. Also, thanks to the naturally odour resistant Merino, the wash cycle can be postponed.

KIDS CORE 260 BOTTOM

Our kids thermal bottoms contain all the technical performance attributes of the adult version, just scaled for smaller legs! Crafted from our midweight 260gm Signature Merino Blend fabric, the 260 bottoms are guaranteed to keep them warm and riding all day long.

KIDS RACE BASE 3/4 BOTTOM

Kids know that red is the fastest colour, so it was the obvious choice for our new midweight 260gm Kids Race Base ¾ Bottoms.

Just like our adult ¾ bottoms, these are designed to accommodate high cuff ski and snowboard boots. For those that don't like the feeling of base layers in boots or rolling up excess fabric, these conclude at the mid calf-length meaning socks, boots and baselayer are all working in perfect harmony, with no gaps, overlaps or complaints to parents! Slip them on and race you to the bottom!

FW22/23
COLLECTION

**WOMENS CORE 160 & CORE 200 BOYSHORT
MENS CORE 160 & CORE 200 BOXER BRIEF**

Why should technical base layers stop before your most prized possessions?

We believe the right choice of base layer is critical to comfort, so we've introduced two different weight options in our Mens Boxer & Womens Boyshort to give your best bits the layering game they deserve.

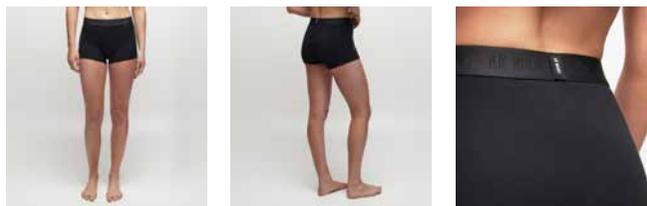

The ultra lightweight 160 Boxers & Boyshorts become the perfect go-to when breathability is a priority. The 200 weight options make for a luxuriously comfortable extension to our baselayers for colder climates.

Gone are the days of overheating and discomfort from synthetic-based boxers. Thanks to our Signature Merino Blend of Merino Wool and Bamboo Rayon, these boxers will work in harmony with your body to regulate temperature, stay stink free for longer and even make life better for those prone to skin irritation.

We've got layering of your assets covered.

NEW COLOURS

CORE BALACLAVA TECH 260

The warmest balaclava for burly arctic conditions. Just like its lightweight counterpart, it's luxuriously soft and ultra breathable, with the additional full mouth and nose mesh panel so you don't need a snorkel after face shotting yourself turning in pow.

BALACLAVA 260

Turn up the temperature-dial and warm your head, neck and face with the midweight Balaclava 260. The super-comfortable feel will keep you warm and feeling comfortable in the coldest of environments.

BEANIES

BUDDY

Ye ol classic fisherman style beanie will make you feel at home on the streets of Aspen or chasing big mountain lines in Chamonix.

POM POM

Warm, comfortable and topped out with a classic pom. Providing warmth and protection from the elements.

All our beanies are constructed from an innovative blend of recycled and virgin yarn. Polylana® fiber consumes less energy and water to produce than standard yarn, yet offers all the same high performance capabilities and durable wear as an acrylic and wool blend.

LOGO POM POM

We took the classic pom beanie and turned up the style dial. Constructed from an innovative blend of recycled and virgin yarn. Polylana® fiber consumes less energy and water to produce than standard yarn, yet offers all the same high performance capabilities and durable wear as an acrylic and wool blend. A patented staple fiber composed of a proprietary blend of innovative modified polyester pellets, and modified rPET chips. This proprietary blend allows Polylana® fiber to be dyed at a low temperature, and gives Polylana® yarn, when knitted, a unique loft and feel.

Polyana® uses less 76% less energy, 85% less water, 76% less waste, and 19% less CO2 than standard acrylic manufacturing.
