RIDE, PROTECT & SHARE

These three words represent the essence of who we are: a brand created by and for outdoor lovers who want to change the rules of their sports and protect their playgrounds. Our special touch? From snowboard and surf to hike and mountain bike, our technical gear stands out for its bold design & colors.

100% sustainable products
and committed business

Climate &
low carbon strategy

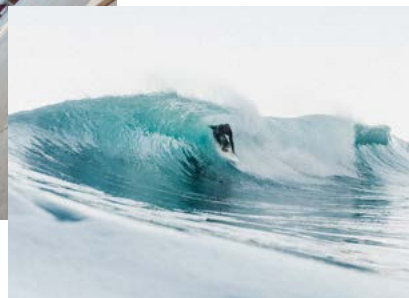

Multi-awarded design

Independent, French brand

Our mission:
**WE CHANGE THE RULES
OF THE OUTDOOR GAME**

100% COMMITTED BUSINESS

We have existed since 2008 (born at 384ppm) and since then, our mission is to change the rules of the outdoor game. All companies are in this situation: they have an impact on the planet. They pollute, and so do we. But this isn't the end of the story. In fact, that is the starting point of our sustainability roadmap.

So what are we doing ?

First, ask the right questions:

What is the role of companies in the transition? How are they useful in meeting the needs of a fairer, more sober economy and society that produces and consumes less? For some, what is their capacity to replace more polluting options? Do they get involved in changing the laws, too? What are they doing to fight climate change and stop the collapse of biodiversity?

At Picture, our main motivation as a committed textile brand is to make the textile industry less polluting, more sustainable and more sober. There are multiple points of improvement, but 3 themes clearly stand out:

- Produce less, consume less, make clothes last and repair them
- Getting out of dependence on coal and gas for the production of electricity to power spinning, weaving and dyeing machines
- Getting out of oil for materials

Getting involved on these points leads to multiple additional benefits of reducing: greenhouse gas emissions, air, soil and water pollution, pressure on workers, pressure on ecosystems, etc.

This is where our B Corp certification has meaning: using business and our influence as a force for good.

But let's not beat about the bush, the transformation of the textile sector must be organized, planned, and politicized. It is not just a matter of «committed brands». The progression of committed brands is not much use if at the same time unscrupulous brands are also progressing in their traditional model. It's a piling up, not a transition.

This is why we need more laws and regulations to put everyone on the same footing, without unfair competition, Penalize the worst practices, encourage the virtuous ones.

Join us in this adventure!

LONG STORY SHORT : HERE IS OUR COMMITMENT IN 5 POINTS

Sustainable materials

Using business as a
force for good

Climate and Low
Carbon strategy

Fair and ethical
production

Packaging policy to
eliminate polybags

SS24 BRAND MARKETING CAMPAIGN

This season, we will celebrate the brand with a multi channel campaign. We aim to showcase our brand in an impactful way, connecting with our customers and encourage them to enjoy the outdoors even more.

Our love for the great outdoors started with board sports -The feeling of floating on the powder snow, the magic of the tube wave, the summit reward after a hike. These are the experiences that have inspired us and that we are committed to preserving and protecting.

At Picture, we're more than an outdoor brand – we're changing the rules of the game and transforming the way people enjoy the outdoors with sustainable, creative, and fun clothing and gear.

Our new brand campaign celebrates everything that makes Picture unique, from our deep roots in board sports to our dedication to sustainability. We believe that life is simply better when it's lived outside. Nature always invites us to come together and create moments of great conviviality and shared experience.

We understand that the spirit of the outdoors is not confined to a specific time or place. It follows you wherever you go, 24/7, and it is our ambition to provide tech and lifestyle clothing for adventure lovers, all day long, all year long.

So come, explore, share, and discover the endless possibilities that await you in the great outdoors.

NEBBIA STUDIO

We're collaborating with Nebbia Studio, founded by Justine Beaussart, to create an immersive universe for our campaign. Nebbia has already worked with several premium French fashion brands and is known for their unique floral designs and commitment to sustainability, using only fresh, seasonal, and locally sourced flowers. Justine's vibrant floral arrangements in a modern and liberated style truly set Nebbia apart.

PACK IT UP!

The Abstral 2.5L W Jacket is the do-it-all high-performance jacket for any outdoor adventure.

This 2.5-layer stretch shell features Picture's 10K waterproof / 10K breathability DryPlay membrane. Eco-engineered with a recycled and circular polyester shell and Teflon Eco Elite™ PFC-Free DWR treatment, it also features fully-taped seams, an integrated brim, and reflective detailing for full protection. And when you no longer need protection from the elements, the vest rolls up and stuffs easily into the right zippered pocket.

Our **Volute Jacket** is a 2.5-layer shell designed for year-round use: lightweight and breathable enough for summertime, yet tough enough and waterproof for any outdoor adventure in colder weather. It features Picture's exclusive 20K/15K waterproof-breathable Dryplay Membrane reinforced with a Teflon EcoElite™ PFC-free durable water repellent treatment. Eco-engineered with circular polyester and recycled polyester, it also has fully-taped seams, an ergonomic hood with a single-point adjustment system and an integrated brim, as well as reflective detailing for full protection when you're up before dawn or out after sunset. The articulated design offers a great fit as well as unparalleled freedom of movement. This lightweight technical jacket comes equipped with pit-zip ventilation for temperature control, side pockets with zips, and adjustable sleeve cuffs with a hook and loop system. Extremely packable, our Volute Jacket is the ideal jacket to carry with you everywhere, just in case you need it.

B Deep water

Our tough, technical **Shooner Pants** will definitely thrill avid hikers. Made with crinkled stretch nylon fabric, we designed the Shooner pants with strategically placed Cordura® panels to reinforce high-friction areas. Their abrasion resistance lets you move through rugged terrain without fear of tearing your pants, while the durable water repellent treatment keeps water at bay. The 4-way stretch construction and adjustable ergonomic elastic waistband offer incredible freedom of movement and comfort. Long zippered side vents from the ankle to the calf provide temperature control and air circulation, while mesh gussets keep everything in place. Equipped with multiple zippered pockets, our Shooner Pants are made for hikes that last all day long and then some.

MTB

From skiing to snowboarding to surfing, the idea of making your own mark or drawing your own line has always been the credo of Picture. After fifteen years of R&D and innovations in the technical textile sector, the idea of extending our expertise to the world of mountain biking appeared as an obvious, logical continuation of what we had initiated. A new offer adapted to our community and its practices to continue to -Ride, Protect & Share- all year long

PICTURE’S CHAMOIS : MULTI DENSITY PAD FOR THE BEST COMFORT

TMIRROR
Teosport Mirror is a cycling pad with a smooth top surface. Inverting the supportive layers creates a super fiat top surface, that is extremely comfortable next to the skin.

FABRIC
Marnets is a new polyester thread that can boast the same quality as the virgin polyester and used for high quality eco-sustainable fabrics. It's obtained by a sophisticated and complex recycling process of the recovered fishing nets, together with other materials.

FOAM
cellpur® is a green foam. This particular type of foam contains Tencel®, an essential natural components derivation that makes the foam high performing and eco-friendly.

HT90
A y-shaped moulded chamois which incorporates wings set at 90 degrees. High Technology 90 uses revolutionary seamless technology so this pad conforms closely to the body and follows all movements perfectly. HT90 technology reduces friction, redness and discomfort in the inguinal area during pedalling.

FOAM DENSITY M2
 • Elasticity: very good
 • Transpiration: excellent breathability thanks to the open cell structure
 • Support: Very good, it is able to guarantee an excellent foam / cyclist weight ratio
 • Density: 90 kg / m3
 • Holes: For more breathability you can also have the perforated foam version, without forgetting that perforation reduce a percentage of foam density

FOAM DENSITY M2
 • Elasticity: very good
 • Transpiration: excellent breathability thanks to the open cell structure
 • Support: Very good, it is able to guarantee an excellent foam / cyclist weight ratio
 • Density: 80 kg / m3
 • Holes: For more breathability you can also have the perforated foam version, without forgetting that perforation reduce a percentage of foam density

BAGS & LUGGAGE

Since every journey has its own story, we like to create bags & luggage for those who seek true adventure. Our bags offer streamlined and versatile storage options for skiing, hiking, camping, train travel, bike trips, and even urban escapes. All the more reason to enjoy the unexpected! Every bag from our product line uses recycled polyester and recycled buckles made in socially-responsible factories. And of course, we take care to make long-lasting and durable, too: the entire line is covered by our lifetime repair warranty program.

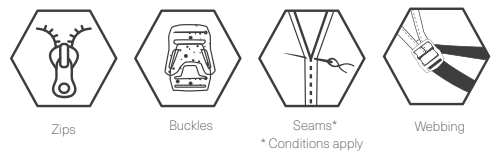

SUSTAINABILITY

DURABILITY

100% of the bag range is covered by the Lifetime Repair Warranty which cover:

UPCYCLING

If for some reason you end up wearing your backpack out, give it a second life by cutting "along the dotted line" to transform your pack into separate accessories.

- Upcycling is one initiative among others leading the brand down the path to circularity.
- Even our toughest backpacks won't last forever: from the very beginning we thought of the end of the product lifecycle.
- For all backpacks in the collection.

BOARDSHORT

Must-have performance-driven boardshorts with our summer prints: washed vintage-looking fabrics, or bold colors. We designed this collection of hybrid boardshorts for those who are super active in the water, the great outdoors, or the city. There is something for everyone: 19" or 15", flat waistband or volley-cut boardshorts. For sun-protection, we also offer classic surf tees with a modern look.

4 PROFILES IN RANGE

ULTRA LOW PROFILE CAP

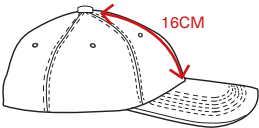

Also know as the dad cap fit, our low profile provide a tight fit, with a shallow volume. Is the perfect choice for those who like a cap that sit above the ears.

SEAM BETWEEN VISOR AND TOP : 15CM

LOW PROFILE CAP

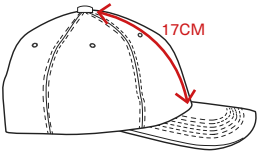

A bit roomier than the dad cap fit, still tight. The cap will sit above ears with a better coverage than the dad cap.

SEAM BETWEEN VISOR AND TOP : 16CM

MID PROFILE CAP

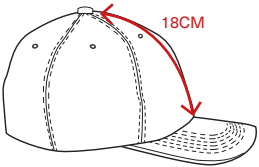

Not too small, not too roomy, our mid profile stand perfectly in between a low and a high profile. It provides a little space between your head and the top of cap.

SEAM BETWEEN VISOR AND TOP : 17CM

HIGH PROFILE CAP

Picture historic fit. Very roomy, perfect for those who are used to large hat size.

SEAM BETWEEN VISOR AND TOP : 18CM

DRINKWARE

Steel is a material that can be produced cleanly and recycled without loss, and therefore respects the principle of sustainability and social responsibility like no other material. Steel is therefore an essential element of a sustainable society. No other product is as environmentally friendly as steel. That's why we are now turning to this new solution for our drinkware range. Still more steel !

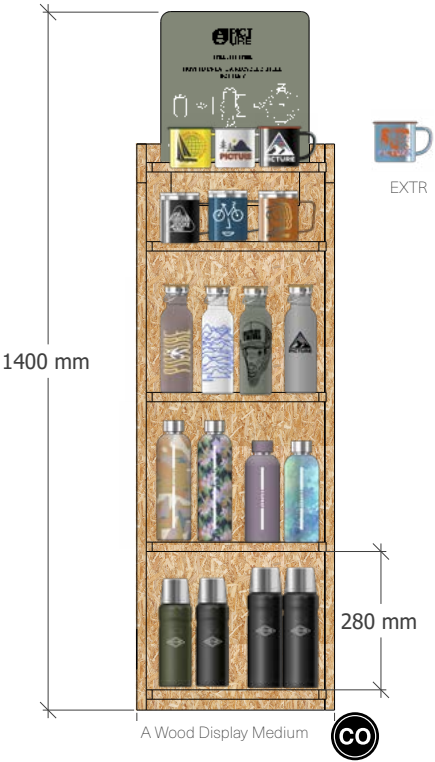

we have expanded our drinkware range. From insulated cups and tumblers for your morning coffee by the campfire, to leak-proof bottles for strenuous hikes, by way of new insulated small-mouth options for commuting, we've got every size and volume you could possibly imagine. Did we mention that they are super stylish as well?

OUT

LINE

Performance-driven urban apparel inspired by our expertise in sustainability and outdoor sports.

After putting our technologies to the test in the toughest conditions in the mountains, we now offer you the same level of protection and comfort to navigate the always challenging and unpredictable urban environment.

Outline, a technical collection designed to weather the demands of daily life, combines outdoor and urban performance to move with you throughout the cityscape.

WOMEN FIT GUIDE / ACTIVEWEAR

SIZE REFERENCE M

Regular Fit

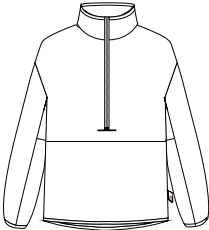

Cut comfortably to offer several options for layering.

FRONT CHEST WIDTH = 53 CM
 WAIST WIDTH = 51 CM
 CENTER FRONT LENGTH INCLUDING COLLAR = 68 CM

Straigh Fit

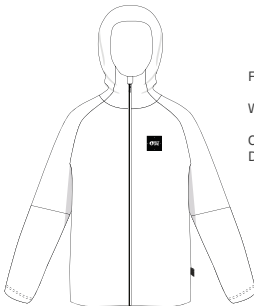

Straight body with room for layering.

FRONT CHEST WIDTH = 50 CM
 WAIST WIDTH = 46 CM
 CENTER FRONT LENGTH FROM NECK SEAM = 58 CM

Regular Fit

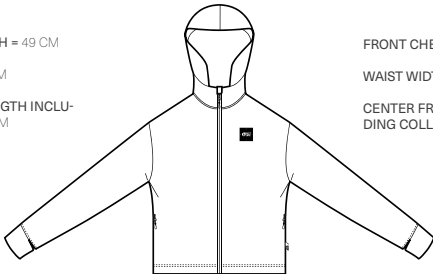

Cut comfortably to offer several options for layering.

FRONT CHEST WIDTH = 49 CM
 WAIST WIDTH = 44CM
 CENTER FRONT LENGTH INCLUDING COLLAR = 65CM

Boxy Fit

A trendy cut borrowed from the men's wardrobe, based on a square (or rectangle), which is not cut to emphasize the shape of the body, but to suggest that it is placed on the upper part of the body and in a loose way.

FRONT CHEST WIDTH = 51 CM
 WAIST WIDTH = 49.50 CM
 CENTER FRONT LENGTH INCLUDING COLLAR = 54CM

SIZE REFERENCE M

Regular Fit

Cut comfortably to offer several options for layering.

FRONT CHEST WIDTH = 47 CM
WAIST WIDTH = 46 CM
CENTER FRONT LENGTH INCLUDING COLLAR = 48 CM

Boxy Fit

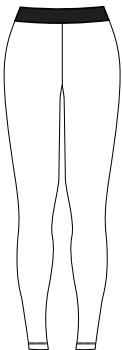

A trendy cut borrowed from the men's wardrobe, based on a square (or rectangle), which is not cut to emphasize the shape of the body, but to suggest that it is placed on the upper part of the body and in a loose way.

FRONT CHEST WIDTH = 54 CM
WAIST WIDTH = 55CM
CENTER FRONT LENGTH EXCLUDING COLLAR = 40. CM

Slim Fit

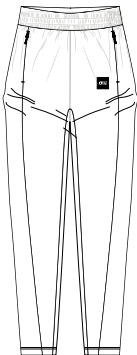

A form-fitting and feminine silhouette. Our slim fit is tighter than the regular fit.

WAIST WIDTH = 32 CM
FRONT RISE (EXCLUDING WAIST-BAND) = 23 CM
BACK RISE (EXCLUDING WAIST-BAND) = 30 CM

Regular Fit

Our Regular cut offers enough room to move around easily as well as a form fitting look.

WAIST WIDTH= 34 CM
INSEAM = 67 CM
FRONT RISE = 23 CM
BACK RISE = 34 CM

PICTURE PARTNERS WITH BEST-IN-CLASS TECH PARTNER TO DEVELOP A HIGH-END INSULATED LAYER RANGE.

PERTEX® QUANTUM USES A TIGHTLY WOVEN STRUCTURE TO PROVIDE A LIGHT AND SOFT FABRIC THAT ALLOWS INSULATION TO FULLY LOFT. Precisely constructed from incredibly fine yarns, Pertex® Quantum fabrics are designed to trap still air and improve the efficiency of insulation.

LIGHTWEIGHT AND PACKABLE

SOFT TO THE TOUCH

WINDPROOF TO RETAIN WARMTH

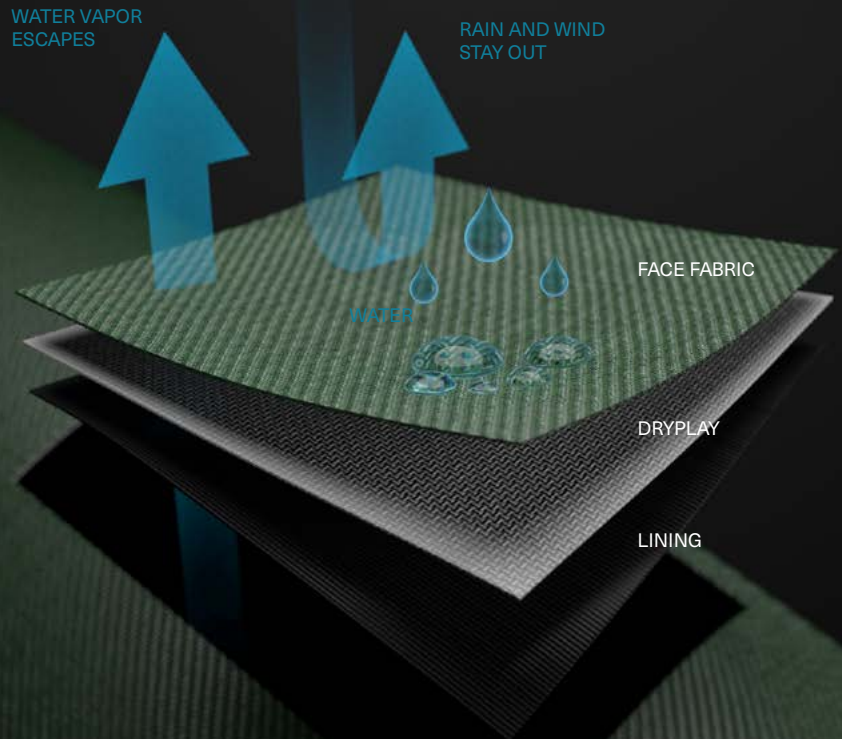

The textile industry has become increasingly aware of its sourcing challenges. In particular the use of animal products such as feather and down and, with the development of the Responsible Down Standard (RDS), a leading standard for animal welfare in down and feather products has been created. The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

- KEY POINTS IN THE RDS
- Protecting animal welfare
 - No live-plucking or force-feeding (Any removal of down and feathers from live birds is prohibited; force-feeding is also prohibited.)
 - Confident communication (Only products with 100% certified down and feathers may carry the RDS logo.)
 - Chain of custody (Certification ensures that the identity of RDS down and feathers is maintained at all times: from the farm to the final product.)

WARMTH TECHNOLOGIES

Layering

Layering is important for managing your climate control in any situation. Regulate temperature and comfort by slipping layers on and off based on the intensity of your effort or as the weather changes. Picture now offers a full range of base layers, mid layers, and outer layers (shells) to help you customize your ideal setup.

RAIN & WIND PROTECTION

- Breathable
- Waterproof
- Windbreaker
- Insulated for extra warmth

3
OUTER LAYER

INSULATION

- Retains heat
- Breathable
- Wicks moisture away

2
MID LAYER

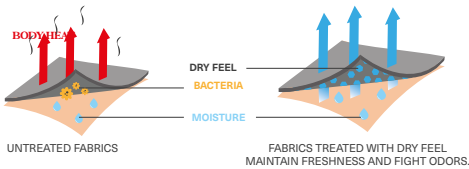

MOISTURE MANAGEMENT

- Worn next to your skin
- Regulates body temperature
- Wicks moisture away and keep you dry...
- DRY FEEL antimicrobial treatment

Flex
Skin

4 WAY STRETCH

SECOND SKIN EFFECT

SUSTAINABLE FABRIC

Flexskin is an eco-friendly and extremely stretch neoprene that allows full freedom of movement while surfing by being highly flexible around the arms, shoulders and upper-body.

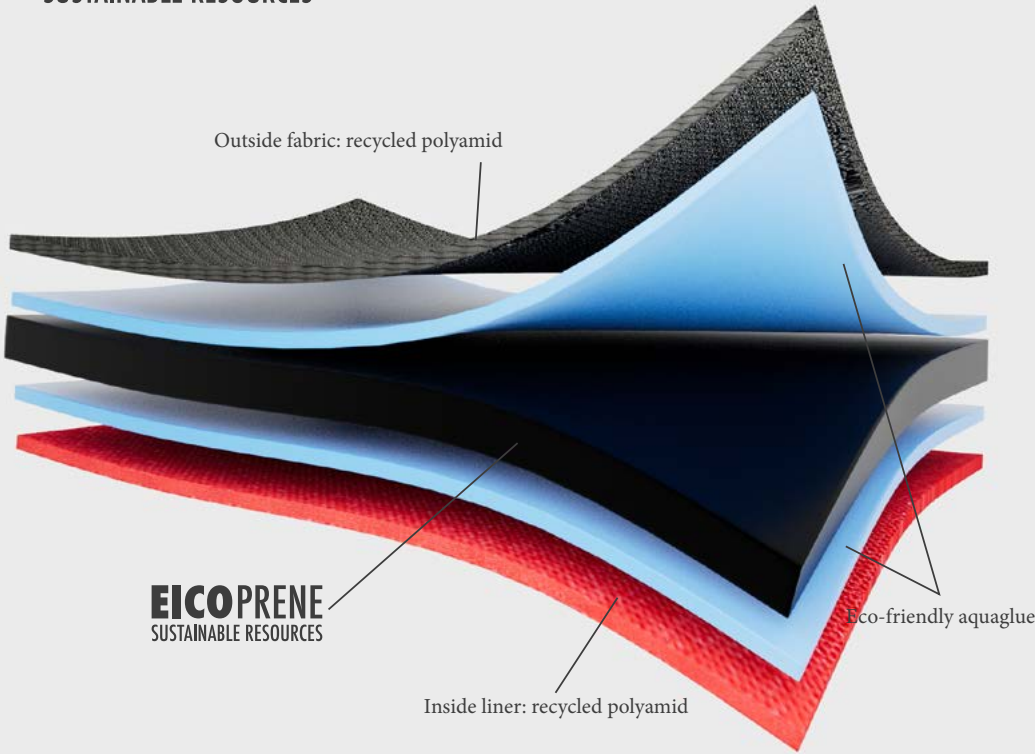

This material is subject to minor cosmetic variations from regular use that will not affect the functionality or performance of the wetsuit. Avoid contact with hook & loop.

TECH INDEX

CORDURA®:
Cordura® fabric is a collection of fabrics qualified by INVISTA for use in a wide array of products from luggage and backpacks to boots, military wear and performance apparel.

MIPAN REGEN
MIPAN regen is a reclaimed nylon yarn made by recycling pre-consumer waste. It possesses excellent dyeing uniformity and is Chlorine & sunscreen damages resistant as well as UPF50+ maximum UV protection.

DRY NOW:
High-performance technology using a recycled polyester blend of hydrophilic and hydrophobic fibers that wicks moisture away

POLARTEC® POWER STRETCH®:
Made with 84% recycled fibers and developed to expand our base fabric's durability and range of motion. By using elastic fibers with enhanced resilience in our stretch construction, we made a performance-fit base fabric that can handle the demands of intense physical activity. It also keeps you dry when you sweat and provides warmth.

DRYPLAY:
This polyurethane (pu) blend laminate membrane is waterproof, windproof, and breathable. Extremely durable, it keeps the user dry in all weather conditions. Laboratory and field tested.

PRIMALOFT:
The world's best synthetic insulation alternative. PrimaLoft® insulation is soft, water resistant, warm without bulk, breathable, lightweight, and packable. At Picture we use PrimaLoft ® insulation ECO with 60% post-consumer recycled

DRY FEEL:
Our new antimicrobial and anti-odor treatment that keeps your base layers as fresh as it was new for more active days. It also means less frequent washing and longer lasting clothes!

EICOPRENE:
Eicoprene is a foam material that has the same technical features and profile as conventional neoprene. However, there is nothing conventional about the origins of this new material. Whereas neoprene is petroleum-based, Eicoprene is made from a mix of limestone, SS22 novelty oyster shell powder and recycled tires.

FAST DRY 4D RECYCLED STRETCH:
made of recycled polyester and elastane, this fabric features a unique hydrophobic construction for maximum stretch and fast drying properties.

FLEXSKIN :
Flexskin is an eco-friendly and extremely stretch neoprene that allows full freedom of movement while surfing. It provides both comfort and resistance but is also highly flexible around the arms, shoulders and upper-body. Flexskin merges naturally with your body during your ocean adventures. It provides a true second skin effect !

TEFLON ECOELITE:
PFC-Free durable water repellent treatment using renewably sourced Teflon EcoElite™ Technology. Zero pollution, zero allergies, zero impact on future generations. Guaranteed 90% efficiency after 10 washes.

Sustainable production

Environmentally responsible closed loop production process, transforms wood pulp into cellulosic fibers with high resource efficiency and low ecological impact.

Feels right features

Color retention

Dope-dyed fiber: long-lasting color vibrancy more than conventionally dyed fiber, and less prone to fade.

Enhanced breathability

The microscopic fibrils of cellulosic fibers are structured to regulate the absorption and release of moisture.

Feels cool and dry

Absorbs moisture more efficiently than cotton, keeping your skin feeling pleasantly cool and dry.

Long-lasting softness

Offer textiles a long-lasting quality of exquisite softness.

Strength

Greater strength among cellulose fibers.

GREEN CERTIFICATIONS

AVITERA SE

Dyeing organic cotton with Avitera SE dyes leads to

- Environment benefits: water and energy savings (50%), Reduced CO2 emission (50%)
- Consumer benefits: helps colors stay bright and dark shade stay dark , substrates dyed with AVITERA® show no trace of PCA (Para-Chloro Aniline)

BLUESIGN APPROVED FABRIC

Bluesign technologies works at each step in the textile supply chain to approve chemicals, processes, materials and products that are safe for the environment, safe for workers, and safe for the end customer.

ECO VERO™

Derived from certified renewable wood sources using an eco-responsible production process by meeting high environmental standards, LENZING™ ECOVERO™ fibers tailor to a sustainable lifestyle, contributing to a cleaner environment.

LENZING™ ECOVERO™ Viscose fibers key facts : Sustainable wood sourcing / Awarded EU Ecolabel / Lower emissions / Supply chain transparency

OEKO-TEX STANDARD 100

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article (every thread, button and other accessories) has been tested for harmful substances and that the article therefore is harmless for human health.

GLOBAL RECYCLED STANDARD

The Global Recycled Standard provides verification of recycled materials, and then tracks the materials throughout the entire supply chain and to the finished product. It includes additional social, environmental, and chemical processing requirements.

TEFLON ECOELITE™ / PFC FREE DURABLE WATER REPELLENT TREATMENT

Teflon EcoElite™ is a renewably sourced, non-fluorinated (PFC-free) fabric treatment for durable water repellency and is manufactured with 60% renewably sourced raw materials.

SUSTAINABLE FABRICS AND PROCESSES

RECYCLED POLYESTER :

Recycled polyester has much lower impacts than virgin polyester: it requires 6 times less oil and emits 2.5 times less greenhouse gases than conventional polyester.

Source : Quantis

TENCEL™:

TENCEL™ branded fibers offer a range of features including botanic origin, sustainable production, gentleness of skin, long-lasting softness, silky smoothness, enhanced breathability, color retention and biodegradability. TENCEL™ fibers are produced by environmentally responsible processes from the sustainably sourced natural raw material wood (FSC certified).

THE CIRCULAR_

Nothing is lost,
Nothing is created,
Everything is transformed.

From Biosource to The Circular_technology ?

- _Part of our never-ending sustainable product innovation policy
- _Use existing waste within our own industry
- _The Circular Process emits twice less CO2 emissions than Biosource

Where does the waste come from?

- _40% Post consumer (used garments)
- _60% Pre consumer (factory cutting scraps)

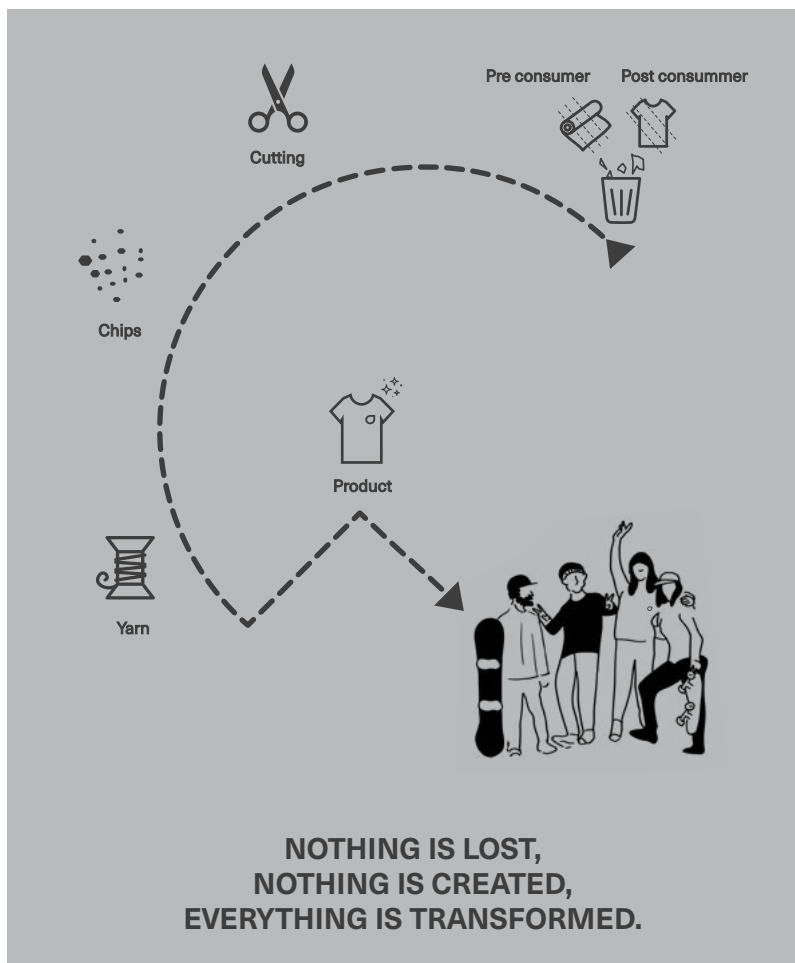

Does it offer the same level of technicity?

- _Yes, it is a new yarn for a new tech fabric
- _Same level of certifications

What are The Circular_products?

- _SS23 Technical pieces
- _FW23 80% of the outerwear + layering + Activewear Jackets
