## RIDE, PROTECT & SHARE

These three words represent the essence of who we are: a brand created by and for outdoor lovers who want to change the rules of their sports and protect their playgrounds. Our special touch? From snowboard and surf to hike and mountain bike, our technical gear stands out for its bold design & colors.

100% sustainable products  
and committed business

Climate &  
low carbon strategy

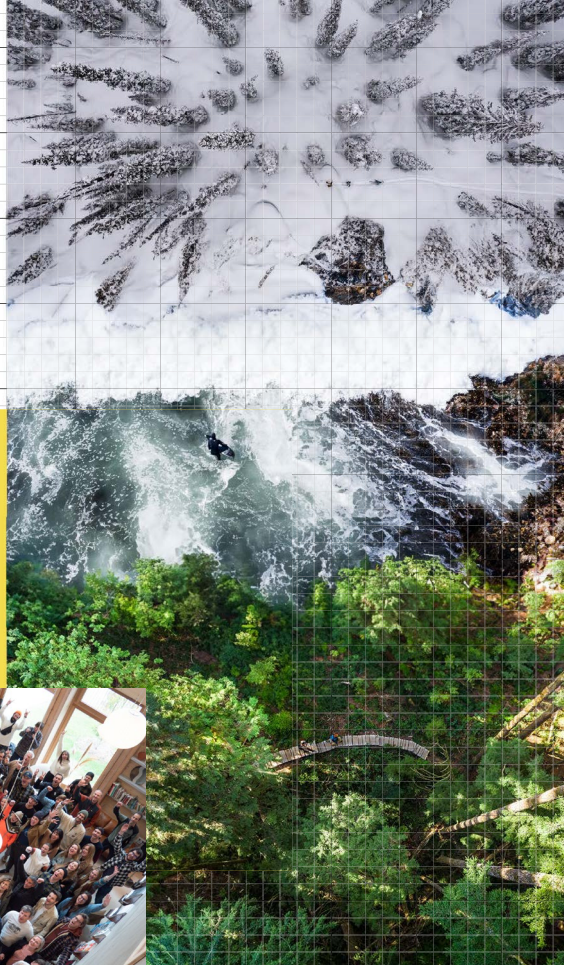

Multi-awarded design

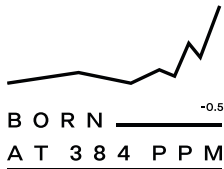

Independent, French brand

Our mission:  
**WE CHANGE THE RULES  
OF THE OUTDOOR GAME**

## Committed brand and business

We have existed since 2008 (born at 384ppm) and since then, our mission is to change the rules of the outdoor game. All companies are in this situation: they have an impact on the planet. They pollute, and so do we. But this isn't the end of the story. In fact, that is the starting point of our sustainability roadmap.

So what are we doing ?

### First, ask the right questions:

What is the role of companies in the transition? How are they useful in meeting the needs of a fairer, more sober economy and society that produces and consumes less? For some, what is their capacity to replace more polluting options? Do they get involved in changing the laws, too? What are they doing to fight climate change and stop the collapse of biodiversity?

At Picture, our main motivation as a committed textile brand is to make the textile industry less polluting, more sustainable and more sober. There are multiple points of improvement, but 3 themes clearly stand out:

- Produce less, consume less, make clothes last and repair them
- Getting out of dependence on coal and gas for the production of electricity to power spinning, weaving and dyeing machines
- Getting out of oil for materials

### LONG STORY SHORT : HERE IS OUR COMMITMENT IN 5 POINTS

Sustainable materials

Using business as a  
force for good

Climate and Low  
Carbon strategy

Fair and ethical  
production

Packaging policy to  
eliminate polybags

Getting involved on these points leads to multiple additional benefits of reducing: greenhouse gas emissions, air, soil and water pollution, pressure on workers, pressure on ecosystems, etc.

**This is where our B Corp certification has meaning: using business and our influence as a force for good.**

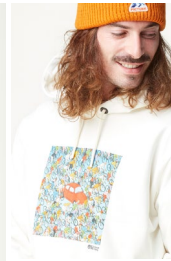

**But let's not beat about the bush, the transformation of the textile sector must be organized, planned, and politicized. It is not just a matter of «committed brands».** The progression of committed brands is not much use if at the same time unscrupulous brands are also progressing in their traditional model. It's a piling up, not a transition.

This is why we need more laws and regulations to put everyone on the same footing, without unfair competition, Penalize the worst practices, encourage the virtuous ones.

**Join us in this adventure!**

Rachel Jung

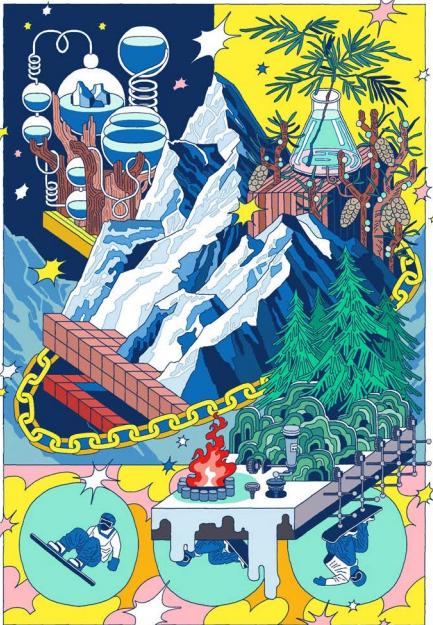

## Brand campaign :

### ARTWORKS UNIVERSE

This campaign honors our brand's creative and artisanal roots, influenced by co-founder Jeremy's architectural background. At Picture, we have always championed bold, disruptive, and playful designs. Through this campaign, we will highlight our most creative products, the blending of colors, and the artworks that deserve all our attention.

In collaboration with the renowned French illustrator, Simon Bailly, we have crafted eight exclusive artworks that embody our spirit of creativity. We have also offered complete artistic freedom to two international artists for them to express their vision of the outdoors: Rachel Jung and Jisu Choi.

The Picture Artworks universe is where the outdoors and art converge.

Jisu Choi

Simon Bailly

# Simon Bailly

**Simon Bailly is a renowned French illustrator.**

He works for several newspapers, events, children's books, and shop advertisements. He has also exhibited his work in various galleries. This season, we have created eight exclusive artworks that showcase our values and commitment.

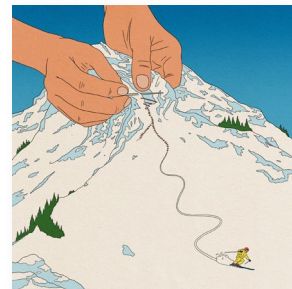

**CIRCULARITY** : Nothing is lost! Keep oil in the ground. We say we must keep oil out of our clothing production. Our Circular\_ program aims to do just that by using fabric scraps and used clothing to create our collection.

**EDUCATION** : To save the penguins, educate the humans! We want to educate, raise awareness of, and drive innovation on new business models.

**TRAVEL** : Our favorite types of mobility. With POW, each year we activate ourselves and our community to ride the low-carbon way. Whether it's to work, to school, or to the hill!

**REPAIR** : Wear again & again & again ...& again Our lifetime repair warranty promises that your jacket can be in play for as long as you're in play!

**SOBRIETY** : Less is more ! Buying a jacket for 1 week of skiing a year isn't sufficient for your wallet, your closet or the planet. Renting is.

**MOBILITY** : 2 wheels > 4 wheels. Cycle through the mountains, to the shop, around the lake, in the middle of the city. Our bike collection keeps you ready for any adventure.

**SNOW** : Go big or go home! Why not do both! Our home is the mountain, where our roots run deep.

**SURF** : Maybe the next wave? We have to anticipate the future. We have to be ready for that next wave, whatever you may look like.

# COLOR STORIES WOMEN

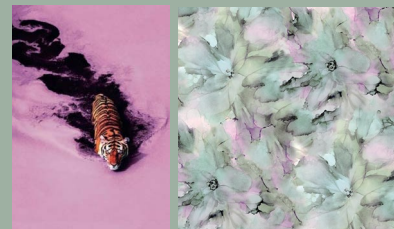

## PHANTASMA

LOOK OUTWARD TO FIND INSPIRATION and create new landscapes. The elegance of brown takes us into a wild natural world.

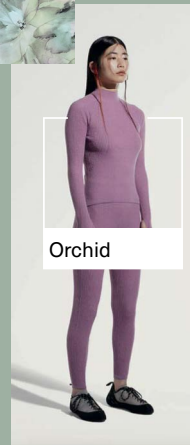

## TRANSLUCENT TEXTURE

ALLOW YOURSELF TO IMMERSE IN PASTELS with these gentle colors that exude serenity and wisdom.

## ACID MINIMALIST

BLACK, WHITE, brilliant white, hyacinth, and ghost cloud are colors that can be found in nature while simultaneously serving as a reminder of scientific, artificial, and sterile elements

# COLOR STORIES MEN

## AROUND THE GREEN

A captivating story that delves into the realm of colors through the lens of green, evoking the serene beauty of a forest. Dive into a world of rich shades where green unveils its mysteries, reminiscent of the lush tranquility found deep within the woods.

## ENERGY

This story brings in another realm of energy and playful colors, where action and optimism reign, while peace continues to flow in the deepest parts of the land.

## MOTHER NATURE

«Mother Nature» draws inspiration from the earth's rich palette, echoing the hues of terracotta, granite gray, and mossy green. This color story celebrates the organic beauty found in natural landscapes, invoking a sense of grounding and serenity. It's a tribute to the timeless artistry of our planet's rocky foundations.

# BACKCOUNTRY TOURING

Picture's new Backcountry Touring range brings together everything that defines who we are: venturing out of bounds, riding new lines with friends, exploring the great outdoors, and promoting sustainable solutions for everyday life. To explore the backcountry in search of fresh powder and to push your limits, take advantage of our full range of jackets and pants that feature our most advanced technologies.

# UTILITY

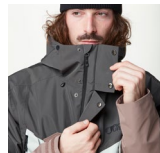

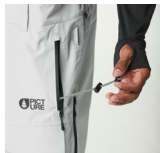

(noun) /'ju:sf(u)lines/ : ability to satisfy a particular need, to be useful.

Sometimes one word just captures the true essence of it all. We chose UTILITY as the name for our new technical range for this very reason. We designed this entire line of high-performance, Circular polyester, no-frills, sleek technical apparel with only the features that you absolutely need. This monochrome range for men and women pushes Picture's commitment to the steep lines (and to the environment of course) one step further.

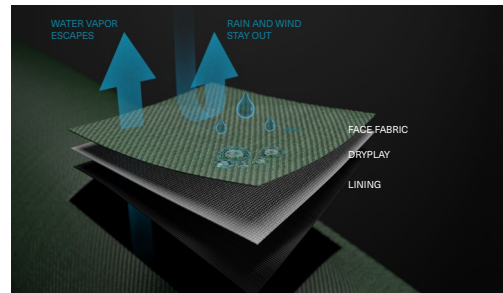

## DESIGN

Subtle Prints & color palettes in functional designs and ergonomics.

## PERFORMANCE

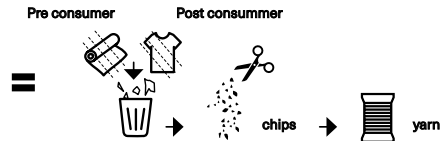

### DRY PLAY 20K MEMBRANE

## SUSTAINABILITY

THE CIRCULAR\_

Nothing is lost, Nothing is created, Everything is transformed.

# COLOR STORY

## GRAVITY

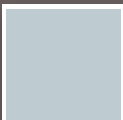

Shades of gray and taupe inspired by nature, based on rocky tones, the palette is soothing to the eyes and the soul, taking us into a natural and pure space.

# SHEARLING FLEECE

ORIGINAL SYNTHETIC FLEECE

Polartec® Shearling Fleece, made from Thermal Pro®, brings advanced functionality to a classic, high-pile look.

Before we invented soft, smooth synthetic fleece, Shearling's bulky warmth was the norm. The traditional knit, napped, and shorn finish delivers timeless style and unparalleled comfort in this more breathable, pill-resistant update.

OUTERWEAR'S ULTIMATE GAME CHANGER.

## KIDS

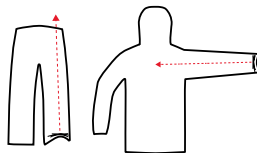

Kids deserve great technical and sustainable gear, too. Since we know just how important it is to pass down our values to future generations, we continue to expand our full range of baby, toddler, and youth apparel to ensure that they also get to spend amazing moments with us in the mountains.

### TODDLER

## I Fit® System

I Fit® System allows  
jackets and pants  
to grow along with the toddler.

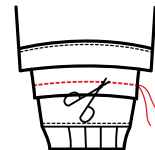

Use the adjuster to extend the  
size of the sleeves or legs to  
your kid's height .

### YOUTH

Grow With Me system allows  
jackets and pants  
to grow along with the youth.

Cut the red  
thread gently  
and stretch the  
sleeve or leg of  
your product to  
gain a size.

# BAGS

Our bags offer streamlined and versatile storage options for skiing, hiking, camping, train travel, bike-packing, and even urban escapes. All the more reason to enjoy the unexpected ! Every bag from our product line uses recycled polyester and recycled buckles made in socially-responsible factories. And of course, we take care to make long-lasting and durable, too: the entire line is covered by our lifetime repair warranty program.

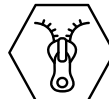

## SUSTAINABILITY

## DURABILITY

100% of the bag range is covered by the Lifetime Repair Warranty which cover:

Zips

Buckles

Seams\*

\* Conditions apply

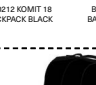

Webbing

## UPCYCLING

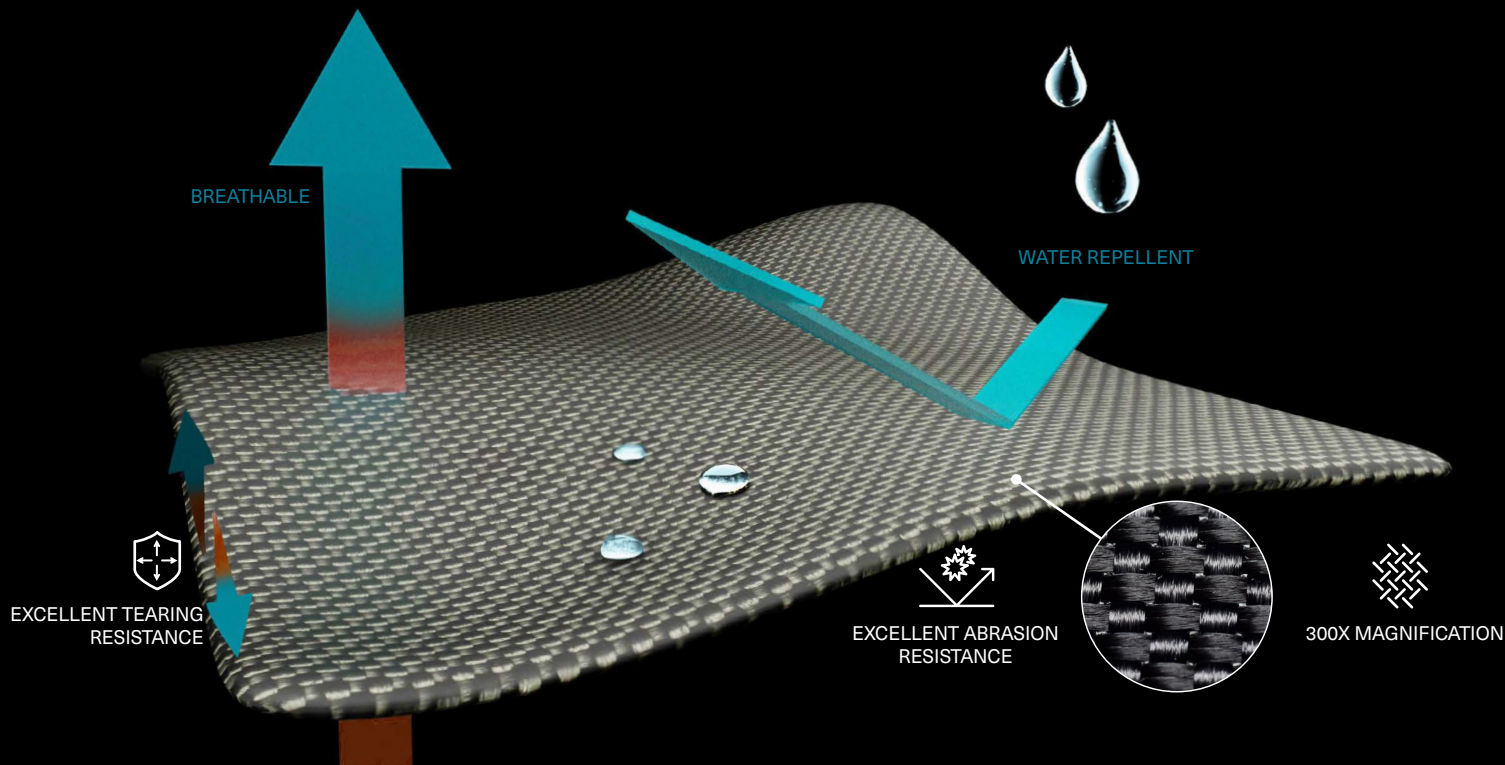

If for some reason you end up wearing your backpack out, give it a second life by cutting "along the dotted line" to transform your pack into separate accessories.

- Upcycling is one initiative among others leading the brand down the path to circularity.
- Even our toughest backpacks won't last forever: from the very beginning we thought of the end of the product lifecycle.
- For all backpacks in the collection.

# GLOVES

We design our gloves and mittens to address every rider's needs, from lightweight Touring gloves to heavy insulated options for harsher, more extreme conditions. And never fear, you'll always find the right color to match your outfit !

Even with so many high-end technical features, our gloves are still just as ecofriendly as always, made with recycled polyester from garments or PET bottles and a PFC-free DWR finish. This year we also worked on a new membrane, more breathability, more performance : Epe Gore-tex, their ecological new membrane.

## COLOR STORIES WOMEN

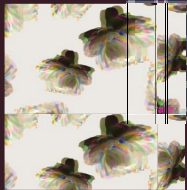

### EPHEMERAL

«Ephemeral» describes something fleeting, brief, or short-lived. It is often used to refer to things that exist for a very short time, such as the transient beauty of a flower or the impermanence of a moment.

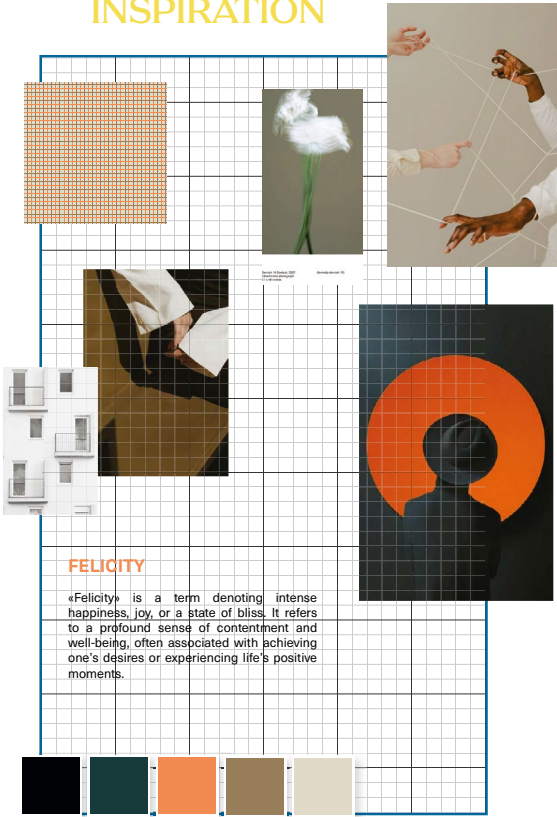

### NEMESIS

«Nemesis» is a term commonly used to refer to a formidable opponent or adversary, often to challenge a protagonist. In Greek mythology, Nemesis was the goddess of just retribution. Symbolizes the balance between all things.

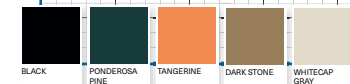

## DESIGN INSPIRATION

### FELICITY

«Felicity» is a term denoting intense happiness, joy, or a state of bliss. It refers to a profound sense of contentment and well-being, often associated with achieving one's desires or experiencing life's positive moments.

## COLOR STORIES MEN

### ETERNEL SUNSHINE

The colors of autumn create a true visual symphony, captivating the senses. As the trees prepare for the arrival of winter, their leaves transform into a palette of warm and vibrant shades, abandoning the lush greens of summer to embrace hues of red, orange, and yellow.

### SPOTLESS MIND

The 90's are emblematic of an era defined by bold and sporty trends. Ski outfits were both functional and stylish, featuring bright colors and daring patterns. During this decade, sporty fashion began to influence people's everyday wear, and the outdoor aesthetic of the time, with its extravagance and vibrancy, serves as a hallmark of this enthusiasm for sportswear.

# PATCHWORK

At Picture, we never stop trying to improve our sustainable approach to product innovation.

On our journey towards circularity, our upcycled Patchwork line is just another step along the way. By using leftover scraps from our factories, we keep fabrics in use and out of landfills. Our limited-edition Patchwork collection gives fabric waste a second-life.

# 4 PROFILES IN RANGE

## ULTRA LOW PROFILE CAP

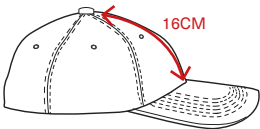

Also know as the dad cap fit, our low profile provide a tight fit, with a shallow volume. Is the perfect choice for those who like a cap that sit above the ears.

SEAM BETWEEN VISOR AND TOP : 15CM

## LOW PROFILE CAP

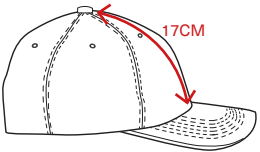

A bit roomier than the dad cap fit, still tight. The cap will sit above ears with a better coverage than the dad cap.

SEAM BETWEEN VISOR AND TOP : 16CM

## MID PROFILE CAP

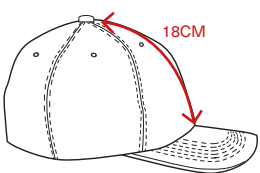

Not too small, not too roomy, our mid profile stand perfectly in between a low and a high profile. It provides a little space between your head and the top of cap.

SEAM BETWEEN VISOR AND TOP : 17CM

## HIGH PROFILE CAP

Picture historic fit. Very roomy, perfect for those who are used to large hat size.

SEAM BETWEEN VISOR AND TOP : 18CM

# PATCHES

Picture has always been engaged in the durability of its clothes. Whether it is by the quality of the materials and seams used, the recycling principle or upcycling... It is possible to act in many ways on the durability, and we continue to invest fully on this axes.

There is another way to extend the life of your clothes and notably the REPAIR. This is the point where our new label «Repair&Reuse» comes in this year. Requested by our after-sales service and our picture family, we will make it easy to repair your garments through repair patches this year.

Feels so right

### Sustainable production

Environmentally responsible closed loop production process, transforms wood pulp into cellulosic fibers with high resource efficiency and low ecological impact.

### Feels right features

#### Color retention

Dope-dyed fiber: long-lasting color vibrancy more than conventionally dyed fiber, and less prone to fade.

#### Enhanced breathability

The microscopic fibrils of cellulosic fibers are structured to regulate the absorption and release of moisture.

#### Feels cool and dry

Absorbs moisture more efficiently than cotton, keeping your skin feeling pleasantly cool and dry.

#### Long-lasting softness

Offer textiles a long-lasting quality of exquisite softness.

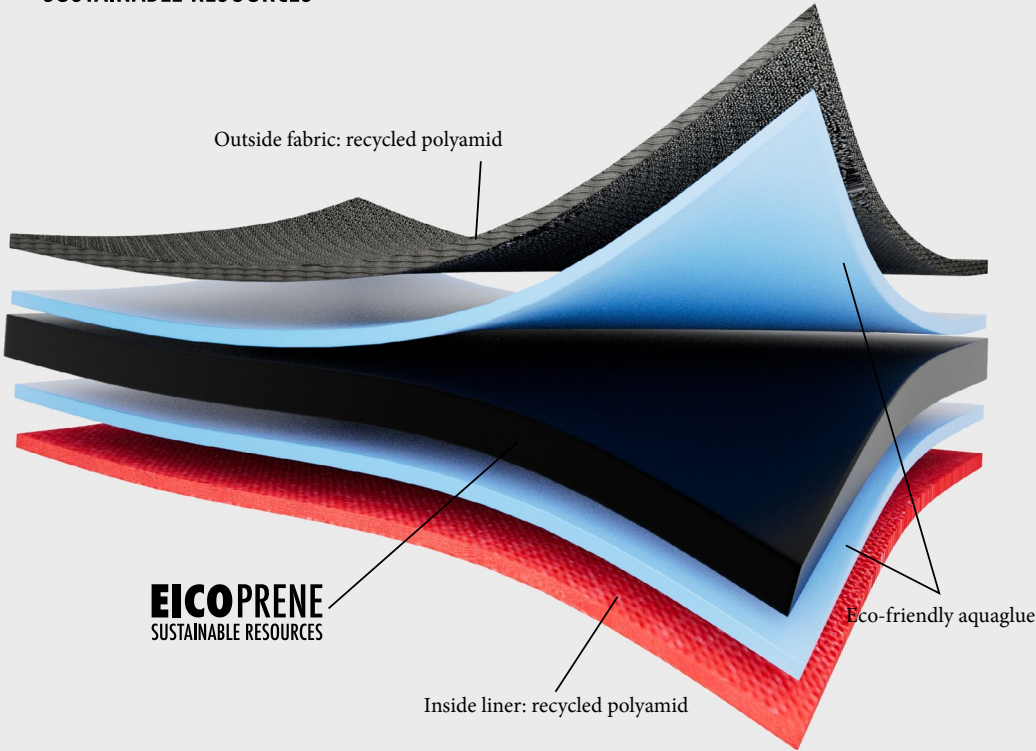

#### Strength

Greater strength among cellulose fibers.

# TECH INDEX

**CORDURA®:**  
Cordura® fabric is a collection of fabrics qualified by INVISTA for use in a wide array of products from luggage and backpacks to boots, military wear and performance apparel.

**COREMAX LINING:**  
Recycled polyester micro-fleece panels integrated in the next-to-skin lining to offer extra warmth and breathability where you

**DRY NOW:**  
High-performance technology using a recycled polyester blend of hydrophilic and hydrophobic fibers that wicks moisture away from the skin and pushes it to the outside where it can evaporate quickly.

**DRYPLAY:**  
This polyurethane (pu) blend laminate membrane is waterproof, windproof, and breathable. Extremely durable, it keeps the user dry in all weather conditions. Laboratory and field tested.

**DRY FEEL:**  
Our new antimicrobial and anti-odor treatment that keeps your base layers as fresh as it was new for more active days. It also means less frequent washing and longer lasting clothes!

**EICOPRENE:**  
Eicoprene is a foam material that has the same technical features and profile as conventional neoprene. However, there is nothing conventional about the origins of this new material. Whereas neoprene is petroleum-based, Eicoprene is made from a mix of limestone (70%) and recycled tires (30%).

**POLARTEC® POWER STRETCH®:**  
Made with 84% recycled fibers and developed to expand our base fabric's durability and range of motion. By using elastic fibers with enhanced resilience in our stretch construction, we made a performance-fit base fabric that can handle the demands of intense physical activity. It also keeps you dry when you sweat and provides warmth.

**POLARTEC® THERMAL PRO®:**  
Made with 75% recycled fibers and designed using new, innovative knitting techniques. The ability to regulate core temperature for maximum comfort is provided by thermal air pockets that trap heat without restricting breathability. Minimizing the mass through open air channels also drastically reduces fabric weight and increases compressibility for better packing and storage.

**PRIMALOFT:**  
The world's best synthetic insulation alternative. PrimaLoft® insulation is soft, water resistant, warm without bulk, breathable, lightweight, and packable. At Picture we use PrimaLoft® insulation ECO with 60% post-consumer recycled content.

**RECOVERY LINING:**  
Technical linings made with discarded scraps, cuttings, and other untreated fabrics (that meet Picture's quality standards) from factories. An eco-friendly alternative to burning this waste.

**TEFLON ECOELITE:**  
PFC-Free durable water repellent treatment using renewably sourced Teflon EcoElite™ Technology. Zero pollution, zero allergies, zero impact on future generations. Guaranteed 90% efficiency after 10 washes.

**THERMAL DRY SYSTEM:**  
Made with recycled polyester (PE), Thermal Dry is a knit fabric used as a lining to keep you warm and dry when active. It features a unique body mapping construction, placed where the body sweats the most, that wicks moisture away.

**THERMAL STD:**  
Made with thin recycled polyester fibers, our Thermal Std insulation provides warmth similar to down, but retains heat more effectively when it gets wet. It is lightweight and dries quickly. The heavier the weight in grams, the warmer the insulation.

**RDS:**  
The textile industry has become increasingly aware of its sourcing challenges. In particular the use of animal products such as feather and down and, with the development of the Responsible Down Standard (RDS), a leading standard for animal welfare in down and feather products has been created.  
The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

**XPORE:**  
Xpore by BenQ is a revolutionary sustainable & high performance nano-porous membrane. 100% PFC free and solvent free, the Xpore membrane offers the best eco-friendly alternative to the actual membrane market leaders, while having superior performance indicators: min. 25K waterproofness & min. 20K breathability (test method JIS L1099 B1). It is also ultra lightweight being two times lighter than the competition.  
Xpore is a true eco revolution in high tech membranes and is featured in the Demain Jacket and Pant.

# SUSTAINABLE FABRICS AND PROCESSES

## AVITERA SE

Dyeing organic cotton with Avitera SE dyes leads to

- Environment benefits: water and energy savings (50%), Reduced CO2 emission (50%)
- Consumer benefits: helps colors stay bright and dark shade stay dark, substrates dyed with AVITERA® show no trace of PCA (Para-Chloro Aniline)

## ECO VERO™

Derived from certified renewable wood sources using an eco-responsible production process by meeting high environmental standards, LENZING™ ECOVERO™ fibers tailor to a sustainable lifestyle, contributing to a cleaner environment.

LENZING™ ECOVERO™ Viscose fibers key facts :

- Sustainable wood sourcing
- Awarded EU Ecolabel
- Lower emissions
- Supply chain transparency

## LINEN : AN ECO-FRIENDLY, NATURAL AND AUTHENTIC FABRIC

This natural material is made from the fibers of the flax plant. Linen is very strong, durable, and absorbent. Since it dries quickly, it helps to evacuate heat. With these beneficial features, it is comfortable to wear in hot weather and gentle to the skin. This fiber also respects the environment as it requires no fertilizer and no watering.

## POLYLANA®

PolyLana® Fiber offers brands and retailers a sustainable choice. The same 'wool like' hand feel and characteristics as acrylic fiber, but with a significant lower impact. Consumers will enjoy the same quality, the same value, but with an additional emotion of doing better.

## RECYCLED POLYESTER :

Recycled polyester has much lower impacts than virgin polyester:

it requires 6 times less oil and emits 2.5 times less greenhouse gases than conventional polyester.

## TENCEL™:

TENCEL™ branded fibers offer a range of features including botanic origin, sustainable production, gentleness of skin, long-lasting softness, silky smoothness, enhanced breathability, color retention and biodegradability. TENCEL™ fibers are produced by environmentally responsible processes from the sustainably sourced natural raw material wood (FSC certified).

# GREEN CERTIFICATIONS

## BLUESIGN APPROVED FABRIC

Bluesign technologies works at each step in the textile supply chain to approve chemicals, processes, materials and products that are safe for the environment, safe for workers, and safe for the end customer.

## OEKO-TEX STANDARD 100

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article (every thread, button and other accessories) has been tested for harmful substances and that the article therefore is harmless for human health.

## GLOBAL ORGANIC TEXTILE STANDARD

The GOTS framework is recognized as a global reference for textiles made from organic fibers. It defines high-level environmental criteria throughout the supply chain for organic textiles and also requires compliance with social criteria. Only textile products that contain a minimum of 70% organic fibers can become GOTS certified.

## GLOBAL RECYCLED STANDARD

The Global Recycled Standard provides verification of recycled materials, and then tracks the materials throughout the entire supply chain and to the finished product. It includes additional social, environmental, and chemical processing requirements.

## ORGANIC CONTENT STANDARD

The Organic Content Standard is used for textiles made with organic grown materials. The aim of this standard is to guarantee the traceability and integrity of the raw materials during every phase of the manufacturing process. OCS 100 logo is used only for products that contain 95% or more organic material.

## ORGANIC BLENDED CONTENT STANDARD

OCS blended is used for products that contain 5% minimum of organic material blended with conventional or synthetic raw materials.

## TEFLON ECOELITE™ / PFC FREE DURABLE WATER REPELLENT TREATMENT

Teflon EcoElite™ is a renewably sourced, non-fluorinated (PFC-free) fabric treatment for durable water repellency and is manufactured with 60% renewably sourced raw materials.
