RIDE, PROTECT & SHARE

These three words represent the essence of who we are: a brand created by and for outdoor lovers who want to change the rules of our sports and protect their playgrounds. Our special touch? From snowboard and surf to hike and mountain bike, our technical gear stands out for its bold design & colors.

- Committed & unconventional business
- Low carbon strategy & durable products
- Multi-awarded design
- Independent, French brand

We change the rules of the outdoor game

Committed brand and business

We have existed since 2008 (born at 384ppm) and since then, our mission is to change the rules of the outdoor game. All companies are in this situation: they have an impact on the planet. They pollute, and so do we. But this isn't the end of the story. In fact, that is the starting point of our sustainibility roadmap. So what are we doing?

First, ask the right questions:

What is the role of companies in the transition? How are they useful in meeting the needs of a fairer, more sober economy and society that produces and consumes less? For some, what is their capacity to replace more polluting options? Do they get involved in changing the laws, too? What are they doing to fight climate change and stop the collapse of biodiversity?

At Picture, our main motivation as a committed textile brand is to make the textile industry less polluting, more sustainable and more sober. There are multiple points of improvement, but 3 themes clearly stand out:

- Offer less, consume less, make clothes last and repair them
- Getting out of dependence on coal and gas for the production of electricity to power spinning, weaving and dyeing machines
- Getting out of oil for materials

Getting involved on these points leads to multiple additional benefits of reducing: greenhouse gas emissions, air, soil and water pollution, pressure on workers, pressure on ecosystems, etc.

This is where our B Corp certification has meaning: using business and our influence as a force for good.

But let's not beat about the bush, the transformation of the textile sector must be organized, planned, and politicized. It is not just a matter of «committed brands». The progression of committed brands is not much use if at the same time unscrupulous brands are also progressing in their traditional model. It's a piling up, not a transition.

This is why we need more laws and regulations to put everyone on the same footing, without unfair competition, Penalize the worst practices, encourage the virtuous ones.

Join us in this adventure!

LONG STORY SHORT : HERE IS OUR COMMITMENT IN 5 POINTS

Sustainable materials

Using business as a force for good

Climate and Low Carbon strategy

Fair and ethical production

Packaging policy to eliminate polybags

Sustainability: 5 R's - Make sobriety the new cool

REDUCE Less is more

- · Lifetime repair warranty: repairing clothes to make them last as long as possible
- Product quality: making sure that we only make products of the highest quality to last you a lifetime of adventures
- Collection size: increasing our carryover products + reducing SKUs
- · Sober marketing practices: not encouraging overconsumption through our campaigns
- · Sober business practices: not encouraging overconsumption through our business actions

REUSE

Buy less, use more

- · Secondhand/ refurbished products: creating a service to avoid buying new
- · Riders for Refugees: donating old gear from Picture riders & employees to refugees
- Circulality: using materials from recycled origins whether pre or post consumer
- Events: organize upcycling workshops to give your old products in a new use

REPAIR

Renwing memories

- Lifetime repair warranty: repairing clothes to make them last as long as possible (1163 repairs worldwide since winter 2019)
- Events: organize upcycling workshops to give your old products in a new use
- Aftersales service: in house team to repair your Picture gear

RENT

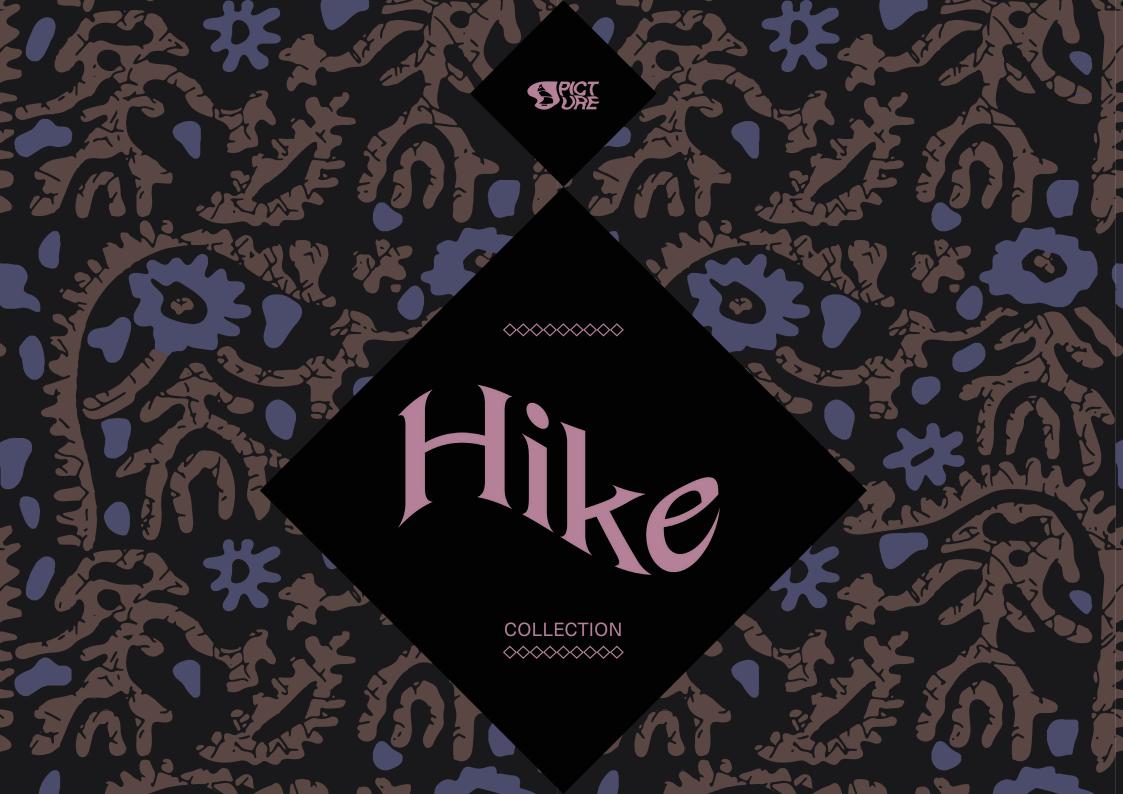

You don't need to buy something new to try something new

• Rental service: rentings products in order to satisfy needs and avoid a purchase as well as make the outdoors more (financially) accessible

RECYCLE

Waste has value, too

- · Circulality: using materials from recycled origins whether pre or post consumer
- Moving away from oil based materials

Designed for the down to earth trekker, this gear respects both the journey and the natural world. Each piece is a testament to low carbon footprint design, ensuring all adventures are as kind to the earth as they are thrilling.

Light Puff WJKT

Combination of style and practicality to face the mountain chill or the city breeze.

This down jacket is the perfect choice for those who seek reliability without the bulk. Crafted entirely from recycled and circular polyester combined with the Responsible Down Standard (RDS) certification, it upholds a commitment to sustainability. Its lightweight nature and packability make it an indispensable item at the bottom of the bag, ready to be deployed when the temperature drops. The simple construction allows for easy size adjustment and compression, while the straight fit ensures timeless style. Hand pockets with reversed zips safeguard essentials, and soft elastic binding at the cuffs, coupled with a bottom hem adjustment system, offers a customizable fit. This jacket is the perfect year-round staple.

Shooner W Stretch PANTS

Hiking pants with Cordura® panels to reinforce high-friction areas made for hikes that last all day long

Made with crinkled stretch nylon fabric, we designed the Shooner pants with strategically placed Cordura® panels to reinforce high-friction areas. Their abrasion resistance lets you move through rugged terrain without fear of tearing your pants, while the durable water repellent treatment keeps water at bay. The 4-way stretch construction and adjustable ergonomic waistband with integrated belt offer incredible freedom of movement and comfort. Long zippered side vents from the ankle to the calf provide temperature control and air circulation, while mesh gussets keep everything in place. Equipped with multiple zippered pockets, our Shooner Pants are made for hikes that last all day long and then some

Abstral + 2.5L JKT

Waterproof and packable, this is the do-it-all high-performance jacket for any outdoor excursion.

Packable and versatile, the Abstral Jacket is the do-it-all high-performance jacket for any outdoor adventure. This 2.5-layer stretch shell features a 20K/20K waterproof-breathable membrane. Made with recycled polyester, Circular polyester, and a PFC-free durable water repellent treatment, it also features fully taped seams, an integrated brim for full protection while playing in the wildest environments and pit zip ventings. Its stretch fabric, elasticated brim, and adjustable wrist cuffs and hem offer a great fit as well as incredible freedom of movement. And when you no longer need protection from the elements, this lightweight technical jacket stuffs into its own pocket for efficient, space-saving packability.

Shooner Stretch PANTS

Hiking pants with Cordura® panels to reinforce high-friction areas made for hikes that last all day long.

Our tough, technical Shooner Pants will definitely thrill avid hikers. Made with crinkled stretch nylon fabric, we designed the Shooner pants with strategically placed Cordura® panels to reinforce high-friction areas. Their abrasion resistance lets you move through rugged terrain without fear of tearing your pants, while the durable water repellent treatment keeps water at bay. The 4-way stretch construction and adjustable ergonomic waistband with integrated belt offer incredible freedom of movement and comfort. Long zippered side vents from the ankle to the calf provide temperature control and air circulation, while mesh gussets keep everything in place. Equipped with multiple zippered pockets, our Shooner Pants are made for hikes that last all day long and then some.

Pants fit guide

The mannequin wears M Sample size and measures 176CM

REGULAR STRAIGHT

Picture's most common cut. Our straight cut offers enough room to move around easily as well as a form-fitting look.

WJS0031 HAMPY PANTS

REGULAR TAPERED 7/8

Relaxed tapered fit is the go-to fit for those looking for comfort above all else. Looser feel than the regular fit, it is much roomier with an ankle length.

WJS0034 PIXOR PANTS

RELAXED FLARED

Our relaxed fit is the go-to fit for those looking for comfort above all else. With a looser feel than the regular fit, is it much roomier.

SOFT ARCHEOLOGY

Inspired by earthly zones and rocks, embracing the beauty of imperfect nature to convey a humble and rustic style.

ORCYNIE FOREST

Inspired by the beauty of nature, drawn from arid desert zones, from the dry vegetation inspiring colors that are both reminiscent of the past yet also feature pops of vibrant accents.

& S O N

Dad & Son is two generations of artists coming together, sharing a passion for art.

"Im profoundly influenced by the artistic background of my father: the time of the Rotring Stylograph and set-squares on old fashioned, counter balanced drawing boards, when everything was done manually".

Jeremy co-founder & head of design

MOUNTAIN BIKE

WATER

Born from a shared desire to explore textile materials and highlight biodiversity, the collaboration between Picture and Jean Jullien gives rise to a unique collection where clothing becomes the canvas for an ode to the salty landscapes of our coastline:

"People in Shells."

People in Shells

With this new capsule collection, Jean Jullien transforms textiles into a vast expanse of sand where characters play, blending in with the shells that typically dot the seaside.

Soft colors and natural tones merge, evoking the peaceful atmosphere of vast oceanic spaces.

This collaboration is an invitation to reflection, to exploration, where the shell, allegory of clothing, is an element that allows the characters to express themselves, to reveal themselves.

A People in Shells

We asked Simon Bailly, a well-known French illustrator,

to explore the relationship of humans and biodiversity in outdoor sports. His illustrations highlight the importance of humans minimizing their impact and leaving no trace after their passage through a wild environment, in order to best preserve their playground.

Patchwork

At Picture, we never stop trying to improve our sustainable approach to product innovation.

On our journey towards circularity, our upcycled Patchwork line is just another step along the way. By using leftover scraps from our factories, we keep fabrics in use and out of landfills. Our limited-edition Patchwork collection gives fabric waste a second-life.

Embark on thrilling trails with Picture's MTB range, tailored for the passionate and purposeful rider.

Our mountain biking apparel, a fusion high performance and enduring quality, is made from ethically sourced materials. It's designed to elevate your ride and consciousness, ensuring every adventure is as exhilarating as it is responsible.

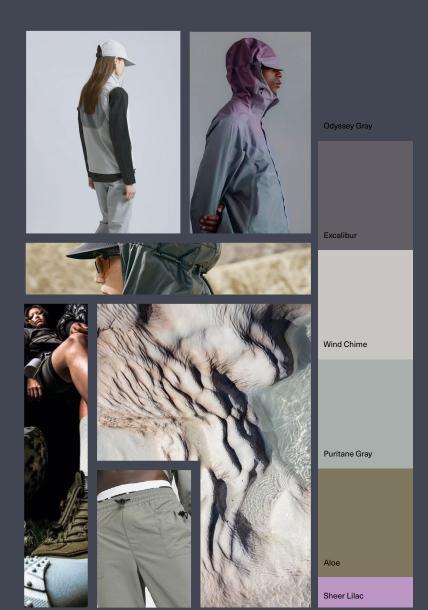

MONTANEA FLOWERS

Inspired to soothe anxiety, a beautiful array of pastel colors. Soft hues, enriched with multiple shades, to enchant movement and new adventures. Pastels elevated and illuminated by this SAP GREEN, a surprisingly versatile shade that complements other colors.

SOFT FUTURES

Soft Future, for dreamers. Inspired by space exploration. Cool, neutral colors inspiring innovation and sensoriality. For pure and futuristic appearances.

Our bags offer streamlined and versatile storage options for skiing, hiking, camping, train travel, bikepacking, and even urban escapes. All the more reason to enjoy the unexpected!

Every bag from our product line uses recycled polyester and recycled buckles made in socially-responsible factories. And of course, we take care to make long-lasting and durable, too: the entire line is covered by our lifetime repair warranty program.

OUTDOOR LIFESTYLE

MOUNTAIN BIKE

Durability

100% of the bag range is covered by the Lifetime Repair Warranty which cover:

PET Bottles

Recycled fabrics (Shell & Lining)

Upcycling & Leftover program

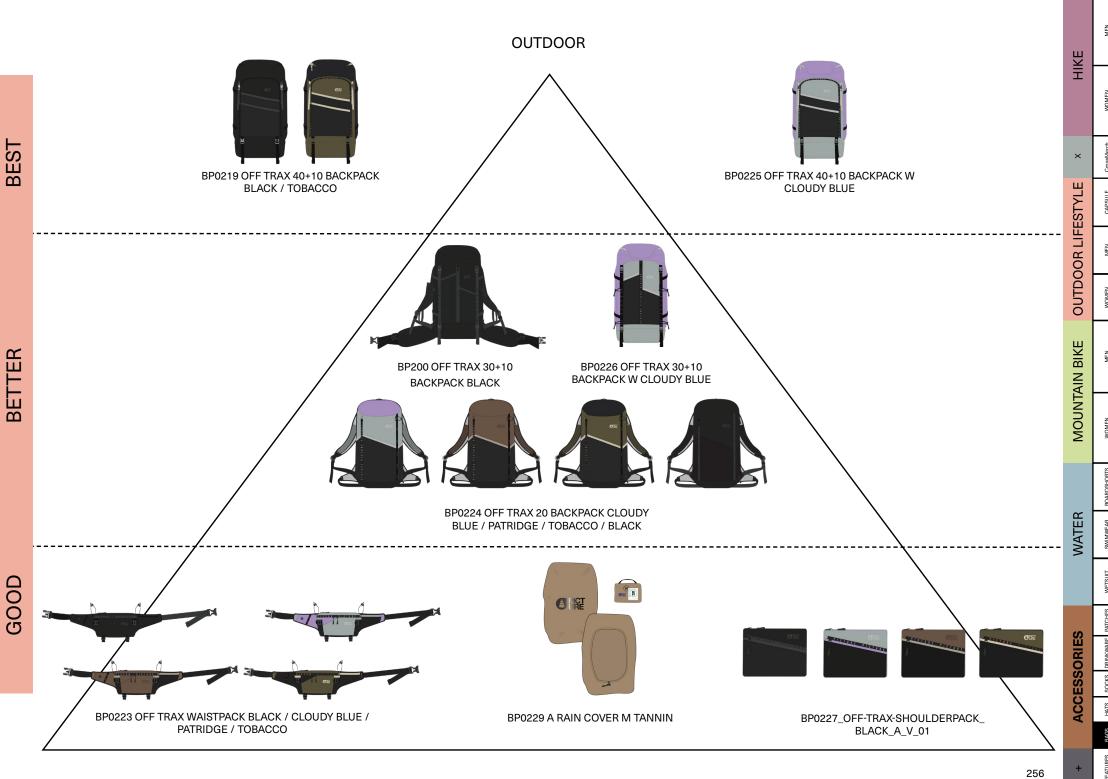

Upcycling: If for some reason you end up wearing your backpack out, give it a second life by cutting "along the dotted line" to transform your pack into separate accessories

Leftover: We work in collaboration with sour factories to recover leftover materials destined for burning or waste disposal.

These are two initiative among others leading the brand down the path to circularity

Hit the trail with a backpack designed for women!

Explore the great outdoors with a pack that perfectly hugs your curves. Our new hiking backpacks, specifically designed for women, offer unparalleled comfort and support for all your adventures.

- and relieves your back.

WILDPATH I Cube pack

Travel

The Wildpath Cube Pack is made up of 3 Cubes (3L, 5L and 8L).

It will help you to better organize all your belongings inside your backpacks. For example, you can store clothes, shoes, snacks or any other essential item for your adventure. The mesh side panels ensure good ventilation, while the strap on the side allows you to easily carry them or take them out of the bag.

Picture's Wildpath Cubes are made from recycled materials from our factories. They are unique pieces made from scraps of our ski jackets and second layers.

ULTRA LOW PROFILE CAP

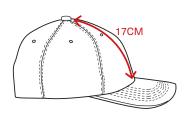

Also know as the dad cap fit, our low profile provide a tight fit, with a shallow volume. Is the perfect choice for those who like a cap that sit above the ears.

SEAM BETWEEN VISOR AND TOP: 15CM

MID PROFILE CAP

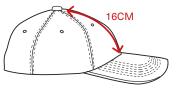

Not too small, not too roomy, our mid profile stand perfectly in between a low and a high profile. It provides a little space between your head and the top of

SEAM BETWEEN VISOR AND TOP: 17CM

LOW PROFILE CAP

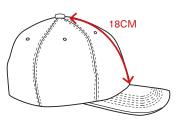

A bit roomier than the dad cap fit, still tight. The cap will sit above ears with a better coverage than the dad cap.

SEAM BETWEEN VISOR AND TOP: 16CM

HIGH PROFILE CAP

Picture historic fit. Very roomy, perfect for those who are used to large hat size.

SEAM BETWEEN VISOR AND TOP: 18CM

WOMEN FIT GUIDE / HIKE

SIZE REFERENCE M

JACKET HIKE

Regular Fit

Cut comfortably to offer several options for layering.

SWEATER

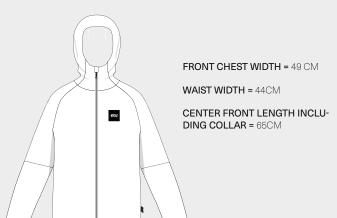

Straigh Fit

Straight body with room for layering.

Regular Fit

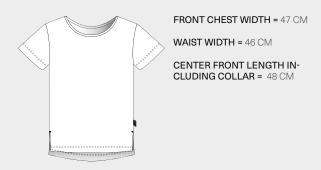

Cut comfortably to offer several options for layering.

TEES

Regular Fit

Cut comfortably to offer several options for layering.

Boxy Fit

A trendy cut borrowed from the men's wardrobe, based on a square (or rectangle), which is not cut to emphasize the shape of the body, but to suggest that it is placed on the upper part of the body and in a loose way.

FRONT CHEST WIDTH = 54 CM

WAIST WIDTH = 55CM

CENTER FRONT LENGTH EXCLU-DING COLLAR = 40. CM

WOMEN FIT GUIDE / HIKE

SIZE REFERENCE M

PANTS HIKE

Regular Tapered

Regular in the hip and thigh, with a tapered leg and a mid rise.

WAIST WIDTH= 34 CM

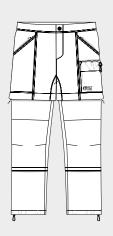

INSEAM = 34 CM

FRONT RISE = 23 CM

BACK RISE = 23 CM

Regular Straight

Regular through the hip, thigh, with a straight leg and a mid rise.

WAIST WIDTH= 37CM

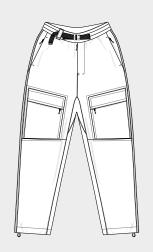

INSEAM = 71CM

FRONT RISE = 29CM

BACK RISE = 39,5CM

Relaxed Straight

Waist, crotch and thigh are wider with a straight leg

WAIST WIDTH= 41,5CM

INSEAM =72CM

FRONT RISE = 28CM

BACK RISE = 34,5CM

SIZE REFERENCE M

TEES

Slim Fit

Our slim fit for women only is tighter than the regular slim. It provides a body fit effect for those who like to wear skinny tee-shirts.

1/2 CHEST WIDTH: 46cm

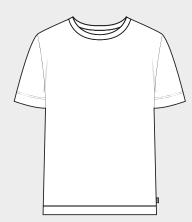

BACK LENGHT: 63cm

ARMHOLE: 20cm

SLEEVE LENGTH: 14cm

Regular Fit

Picture most common cut. It gives enough room to move easily your chest and arms while giving you a fitted silhouette thanks to its straight cut.

1/2 CHEST WIDTH: 50cm

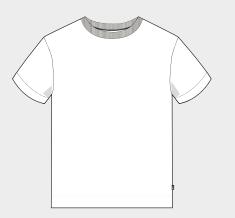

BACK LENGHT: 68cm

ARMHOLE: 21cm

SLEEVE LENGTH: 20cm

Relaxed Fit

Our relaxed fit is the go to for those who seek comfort first. It is a bit larger than the regular fit to provides a looser fit with more room.

1/2 CHEST WIDTH: 52cm

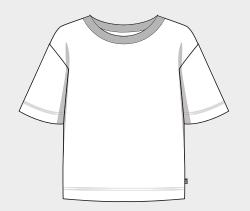

BACK LENGHT: 68cm

ARMHOLE:21cm

SLEEVE LENGTH: 20.5cm

Boxy Fit

Same width than the relaxed fit but with a shorter length. It provides a looser fit for a maximum of comfort and style.

1/2 CHEST WIDTH: 57cm

BACK LENGHT: 55cm

ARMHOLE: 23.5cm

SLEEVE LENGTH: 20cm

Freeze-tool™

Add-on-waist™ can be attached to the waist belt of our hiking & travel backpacks.

DOWN JACKET

PICTURE PARTNERS WITH BEST-IN-CLASS TECH PARTNER TO DEVELOP A HIGH-END INSULATED LAYER RANGE.

PERTEX® QUANTUM USES A TIGHTLY WOVEN STRUCTURE TO PROVIDE A LIGHT AND SOFT FABRIC THAT ALLOWS INSULATION TO FULLY LOFT. Precisely constructed from incredibly fine yarns, Pertex® Quantum fabrics are designed to trap still air and improve the efficiency of insulation.

LIGHTWEIGHT AND PACKABLE

SOFT TO THE TOUCH

WINDPROOF TO RETAIN WARMTH

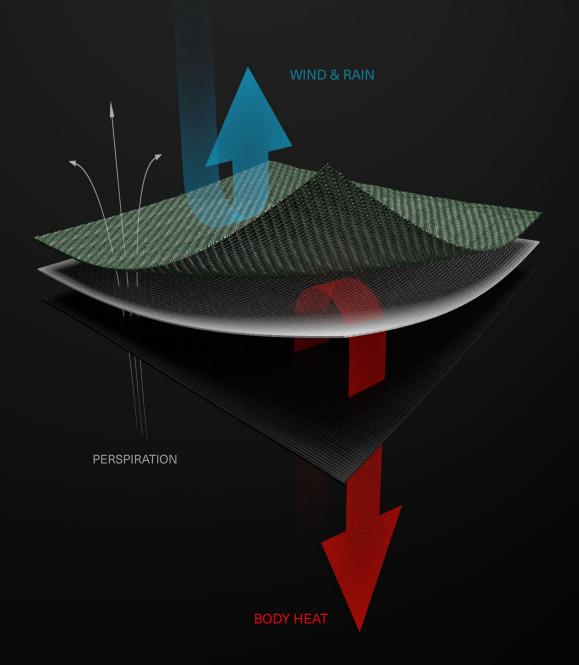

The textile industry has become increasingly aware of its sourcing challenges. In particular the use of animal products such as feather and down and, with the development of the Responsible Down Standard (RDS), a leading standard for animal welfare in down and feather products has been created.

The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

KEY POINTS IN THE RDS

- Protecting animal welfare
- No live-plucking or force-feeding (Any removal of down and feathers from live birds is prohibited; force-feeding is also prohibited.)
- Confident communication (Only products with 100% certified down and feathers may carry the RDS logo.)
- Chain of custody (Certification ensures that the identity of RDS down and feathers is maintained at all times: from the farm to the final product.)

WARMTH TECHNOLOGIES

Layering

Layering is important for managing your climate control in any situation. Regulate temperature and comfort by slipping layers on and off based on the intensity of your effort or as the weather changes. Picture now offers a full range of base layers, mid layers, and outer layers (shells) to help you customize your ideal setup.

RAIN & WIND PROTECTION

- Breathable

DOME SERIES

Engineered to offer maximum warmth and protection, our DOME series is loaded with our latest technologies.

- DRY NOW LINING
- POWER SEAMS
- HYPER STRETCH KNITS UNDERARM

EQUATION SERIES

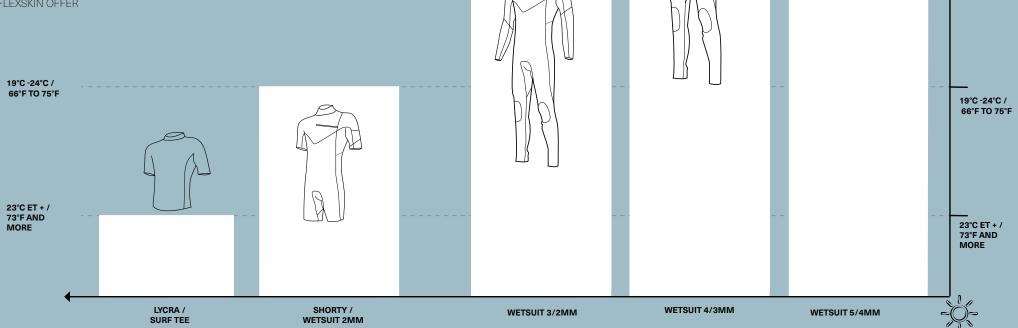

COMFORT, STRETCH, AND VERSATILITY IS WHAT OUR EQUATION SERIES IS ALL ABOUT.

- WPF LINING
- FULLY TAPED SEAMS
- FLEXSKIN OFFER

META SERIES SERIES

LIGHT AND RADICAL, OUR NEW META SERIES PROVIDE ULTIMATE COMFORT & FLEXIBILITY TO EXPLORE WARM COASTS ALL AROUND THE GLOBE.

- STD LINING
- FLEXSKIN OFFER

WETSUITS TECHNICAL FEATURES:

			DOMES SERIES	EQUATION SERIES	META SERIES
F A B	EICOPRENE SUSTAINABLE RESOURCES	Eicoprene is a foam material that has the same technical features and profile as conventional neoprene. Whereas neoprene is petroleum-based, Eicoprene is made from a mix of limestone, SS22 novely, oyster shell powder and recycled tires. Always improving our sustainable engineering, we integrated oyster shell powder as a biosource and renewable solution. The upgraded Eicoprene technology is featured on 100% of the wetsuits range.	~	~	\
R I C S		Polyamide linings made from recycled fishing nets	~	~	~
		AQUAOL** eco-friendly water based aquaglue	~	~	~
		DRY NOW A high-performance polyester fabric that wicks moisture away, dries fast, insulates better, and makes the wetsuit lighter when in the water.	~		
L N I N		WPF Built using a 3D-knit construction, the lining provides warmth by trapping air between each loop. Plus, the denser fabric provides extra comfort.		~	
G S		Std LINING Thermal lining made with recycled polyester to insulate and retain body heat.			~
		GLUED & BLIND- STITCHED SEAMS The triple-glued and blind-stitched seams, with durable nylon thread, provide ample stretch and are watertight.	~	~	
C O N S		POWER SEAMS Advanced seam sealing for a narrow yet durable, flexible, and watertight finish.	* ONLY ON 4/3 AND BIGGER THICKNESS		
T R U C	*	FULLY TAPED SEAMS for waterproof seal	~	~	
T I O N	1	CRITICALLY TAPED SEAMS for extra strength on every stress point			~
		FLATLOCK SEAMS Regular flat seams that guarantee a soft skin feeling and provides lightness and flexibility.			~

	Flex Our most extensible Neoprene in range. It Provides the ultimate level of stretchiness and flexibility to guarantee a true second skin feeling.		* ON SELECTED ITEMS ONLY	*
	HYPER STRETCH KNIT Located in areas that require maximum stretch for more comfort when paddling.	~		
	FUSE CUT Fuse-cut finished edges for increased durability.	~	~	~
	DRAIN HOLES To drain water quickly.	~	~	~
F E A T U	GLIDESKIN NECK SEAL Ultra-smooth lining for more comfort and to keep water from entering.	~	~	~
R E S	COMFORT ZONE Twice as thick to protect your ribs.	*ONLY ON 3/2 AND SELECTED 4/3	* ONLY ON 3/2 AND SELECTED 4/3	
	WATERTIGHT SEAL Elastic wrist seals minimize water entry.	~	~	
	KEY POCKET	~	~	*ON SELECTED ITEMS ONLY

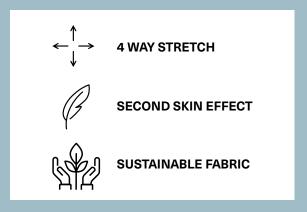

POINTS OF PARITY VS COMPETITORS

POINTS OF DIFFERENCE VS COMPETITORS

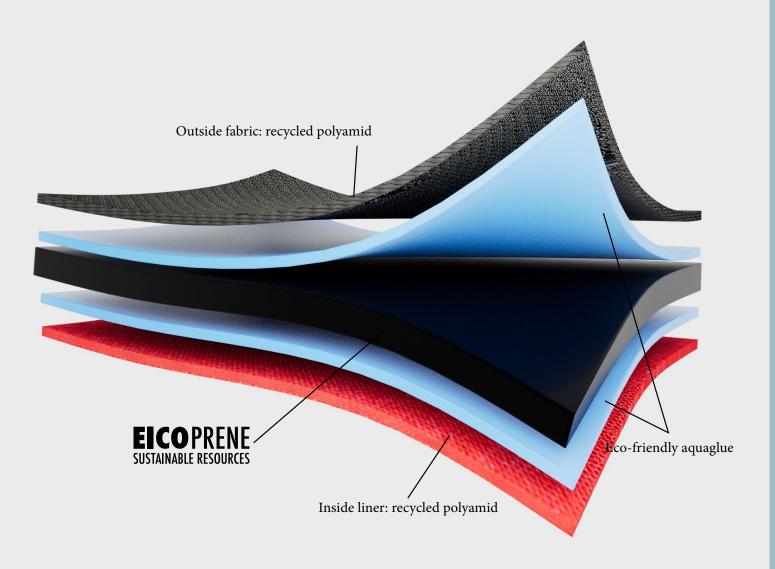

Flex Skin

Flexskin is an eco-friendly and extremely stretch neoprene that allows full freedom of movement while surfing by being highly flexible around the arms, shoulders and upper-body.

This material is subject to minor cosmetic variations from regular use that will not affect the functionalityor performance of the wetsuit. Avoid contact with hook & loop.

FABRICS

ARTIFICIAL SILK

- + Recycled non-toxic solvent
- Raw materials : Wood / Leaves / Branches

Soft touch as silk

SYNTHETIC FABRICS

RECYCLED POLYESTER

Crude oil use 6x less*

For the same technical quality of the product

Feels so right

Sustainable production

Environmentally responsible closed loop production process, transforms wood pulp into cellulosic fibers with high resource efficiency and low ecological impact.

Feels right features

Color retention

Dope-dyed fiber: long-lasting color vibrancy more than conventionally dyed fiber, and less prone to fade.

Enhanced breathability

The microscopic fibrils of cellulosic fibers are structured to regulate the absorption and release of moisture.

Feels cool and dry

Absorbs moisture more efficiently than cotton. keeping your skin feeling pleasantly cool and dry.

Long-lasting softness

Offer textiles a long-lasting quality of exquisite softness.

Strength

Greater strengh among cellulose fibers.

From Biosource to The Circular_technology?

- _Part of our never-ending sustainable product innovation policy
- _Use existing waste within our own industry
- _The Circular Process emits twice less CO2 emissions than Biosource

Where does the waste come from?

- _ 40% Post consumer (used garments)
- _ 60% Pre consumer (factory cutting scraps)

Does it offer the same level of technicity?

- _ Yes, it is a new yarn for a new tech fabric
- Same level of certifications

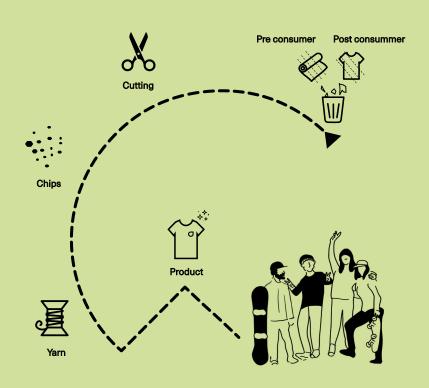

What are The Circular_products?

- _SS23 Technical pieces
- _FW23 80% of the outerwear + layering + Activewear Jackets

TECH INDEX

CORDURA®:

Cordura® fabric is a collection of fabrics qualified by INVISTA for use in a wide array of products from luggage and backpacks to boots, military wear and performance apparel.

PRIMALOFT:

The world's best synthetic insulation alternative. PrimaLoft® insulation is soft, water resistant, warm without bulk, breathable, lightweight, and packable. At Picture we use PrimaLoft® insulation ECO with 60% post-consumer recycled content.

COREMAX LINING:

Recycled polyester micro-fleece panels integrated in the next-to-skin lining to offer extra warmth and breathability where you

RECOVERY LINING:

Technical linings made with discarded scraps, cuttings, and other untreated fabrics (that meet Picture's quality standards) from factories. An eco-friendly alternative to burning this waste.

DRY NOW:

High-performance technology using a recycled polyester blend of hydrophilic and hydrophobic fibers that wicks moisture away from the skin and pushes it to the outside where it can evaporate quickly.

TEFLON ECOELITE:

PFC-Free durable water repellent treatment using renewably sourced Teflon EcoElite ™ Technology. Zero pollution, zero allergies, zero impact on future generations. Guaranteed 90% efficiency after 10 washes.

DRYPLAY:

This polyurethane (pu) blend laminate membrane is waterproof, windproof, and breathable. Extremely durable, it keeps the user dry in all weather conditions. Laboratory and field tested.

THERMAL DRY SYSTEM:

Made with recycled polyester (PE), Thermal Dry is a knit fabric used as a lining to keep you warm and dry when active. It features a unique body mapping construction, placed where the body sweats the most, that wicks moisture away.

DRY FEEL:

Our new antimicrobial and anti-odor treatment that keeps your base layers as fresh as it was new for more active days. It also means less frequent washing and longer lasting clothes!

THERMAL STD:

Made with thin recycled polyester fibers, our Thermal Std insulation provides warmth similar to down, but retains heat more effectively when it gets wet. It is lightweight and dries quickly. The heavier the weight in grams, the warmer the insulation.

EICOPRENE:

Eicoprene is a foam material that has the same technical features and profile as conventional neoprene. However, there is nothing conventional about the origins of this new material. Whereas neoprene is petroleum-based, Eicoprene is made from a mix of limestone (70%) and recycled tires (30%).

RDS:

The textile industry has become increasingly aware of its sourcing challenges. In particular the use of animal products such as feather and down and, with the development of the Responsible Down Standard (RDS), a leading standard for animal welfare in down and feather products has been created.

The scope of the RDS includes the full down supply chain from the farms and slaughter facilities (animal welfare) to the down processors and garment factories (traceability).

POLARTEC® POWER STRETCH®:

Made with 84% recycled fibers and developed to expand our base fabric's durability and range of motion. By using elastic fibers with enhanced resilience in our stretch construction, we made a performance-fit base fabric that can handle the demands of intense physical activity. It also keeps you dry when you sweat and provides warmth.

Made with 75% recycled fibers and designed using new, innovative knitting techniques. The ability to regulate core temperature for maximum comfort is provided by thermal air pockets that trap heat without restricting breathability. Minimizing the mass through open air channels also drastically reduces fabric weight and increases compressibility for better packing and storage.

XPORE:

Xpore by BenQ is a revolutionary sustainable & high performance nano-porous membrane. 100% PFC free and solvent free, the Xpore membrane offers the best eco-friendly alternative to the actual membrane market leaders, while having superior performance indicators: min. 25K waterproofness & min. 20K breathability (test method JIS L1099 B1). It is also ultra lightweight being two times lighter than the competition.

Xpore is a true eco revolution in high tech membranes and is featured in the Demain Jacket and Pant.

SUSTAINABLE FABRICS AND PROCESSES

- Dyeing organic cotton with Avitera SE dyes leads to Environment benefits: water and energy savings (50%), Reduced CO2 emission (50%)
- Consumer benefits: helps colors stay bright and dark shade stay dark, substrates dyed with AVITERA® show no trace of PCA (Para-Chloro Aniline)

FCO VFRO™

Derived from certified renewable wood sources using an eco-responsible production process by meeting high environmental standards, LENZING™ ECOVERO™ fibers tailor to a sustainable lifestyle, contributing to a cleaner environment.

LENZING™ ECOVERO™ Viscose fibers key facts:

Sustainable wood sourcing Awarded EU Ecolabel

Lower emissions

Supply chain transparency

LINEN: AN ECO-FRIENDLY, NATURAL AND AUTHENTIC FABRIC

This natural material is made from the fibers of the flax plant. Linen is very strong, durable, and absorbent. Since it dries quickly, it helps to evacuate heat. With these beneficial features, it is comfortable to wear in hot weather and gentle to the skin. This fiber also respects the environment as it requires no fertilizer and no watering.

Polylana® Fiber offers brands and retailers a sustainable choice. The same 'wool like' hand feel and characteristics as acrylic fiber, but with a significant lower impact. Consumers will enjoy the same quality, the same value, but with an additional emotion of doing better.

RECYCLED POLYESTER:

Recycled polyester has much lower impacts than virgin polyester:

it requires 6 times less oil and emits 2.5 times less greenhouse gases than conventional polyester.

TENCELTM branded fibers offer a range of features including botanic origin, sustainable production, gentleness of skin, long-lasting softness, silky smoothness, enhanced breathability, color retention and biodegradability. TENCEL[™] fibers are produced by environmentally responsible processes from the sustainably sourced natural raw material wood (FSC certified).

GREEN CERTIFICATIONS

BLUESIGN APPROVED FABRIC

Bluesign technologies works at each step in the textile supply chain to approve chemicals, processes, materials and products that are safe for the environment, safe for workers, and safe for the end customer.

OEKO-TEX STANDARD 100

If a textile article carries the STANDARD 100 label, you can be certain that every component of this article (every thread, button and other accessories) has been tested for harmful substances and that the article therefore is harmless for human health.

GLOBAL ORGANIC TEXTILE STANDARD

The GOTS framework is recognized as a global reference for textiles made from organic fibers. It defines high-level environmental criteria throughout the supply chain for organic textiles and also requires compliance with social criteria. Only textile products that contain a minimum of 70% organic fibers can become GOTS certified.

GLOBAL RECYCLED STANDARD

The Global Recycled Standard provides verification of recycled materials, and then tracks the materials throughout the entire supply chain and to the finished product. It includes additional social, environmental, and chemical processing requirements.

ORGANIC CONTENT STANDARD

The Organic Content Standard is used for textiles made with organic grown materials. The aim of this standard is to guarantee the traceability and integrity of the raw materials during every phase of the manufacturing process. OCS 100 logo is used only for products that contain 95% or more organic material.

ORGANIC BLENDED CONTENT STANDARD

OCS blended is used for products that contain 5% minimum of organic material blended with conventional or synthetic raw materials.

TEFLON ECOELITE™ / PFC FREE DURABLE WATER REPELLENT TREATMENT

Teflon EcoElite™ is a renewably sourced, non-fluorinated (PFC-free) fabric treatment for durable water repellency and is manufactured with 60% renewably sourced raw materials.

THANKS TO

Riot House production is a company composed by 14 collaborators fascinated by medias, images and the audiovisual market.

Photography, audiovisual techniques, international business and communication are the key skills which bring credibility and efficiency to their work.
